Everybody Sees It!

That's Why Every Location Owner Will Want A WURLITZER

● Wurlitzer's *Sign of the Musical Note* is becoming one of America's best-known trademarks. Everywhere Wurlitzer's national magazine and billboard advertising is telling people that it identifies a place where they can have fun playing Wurlitzer Music.

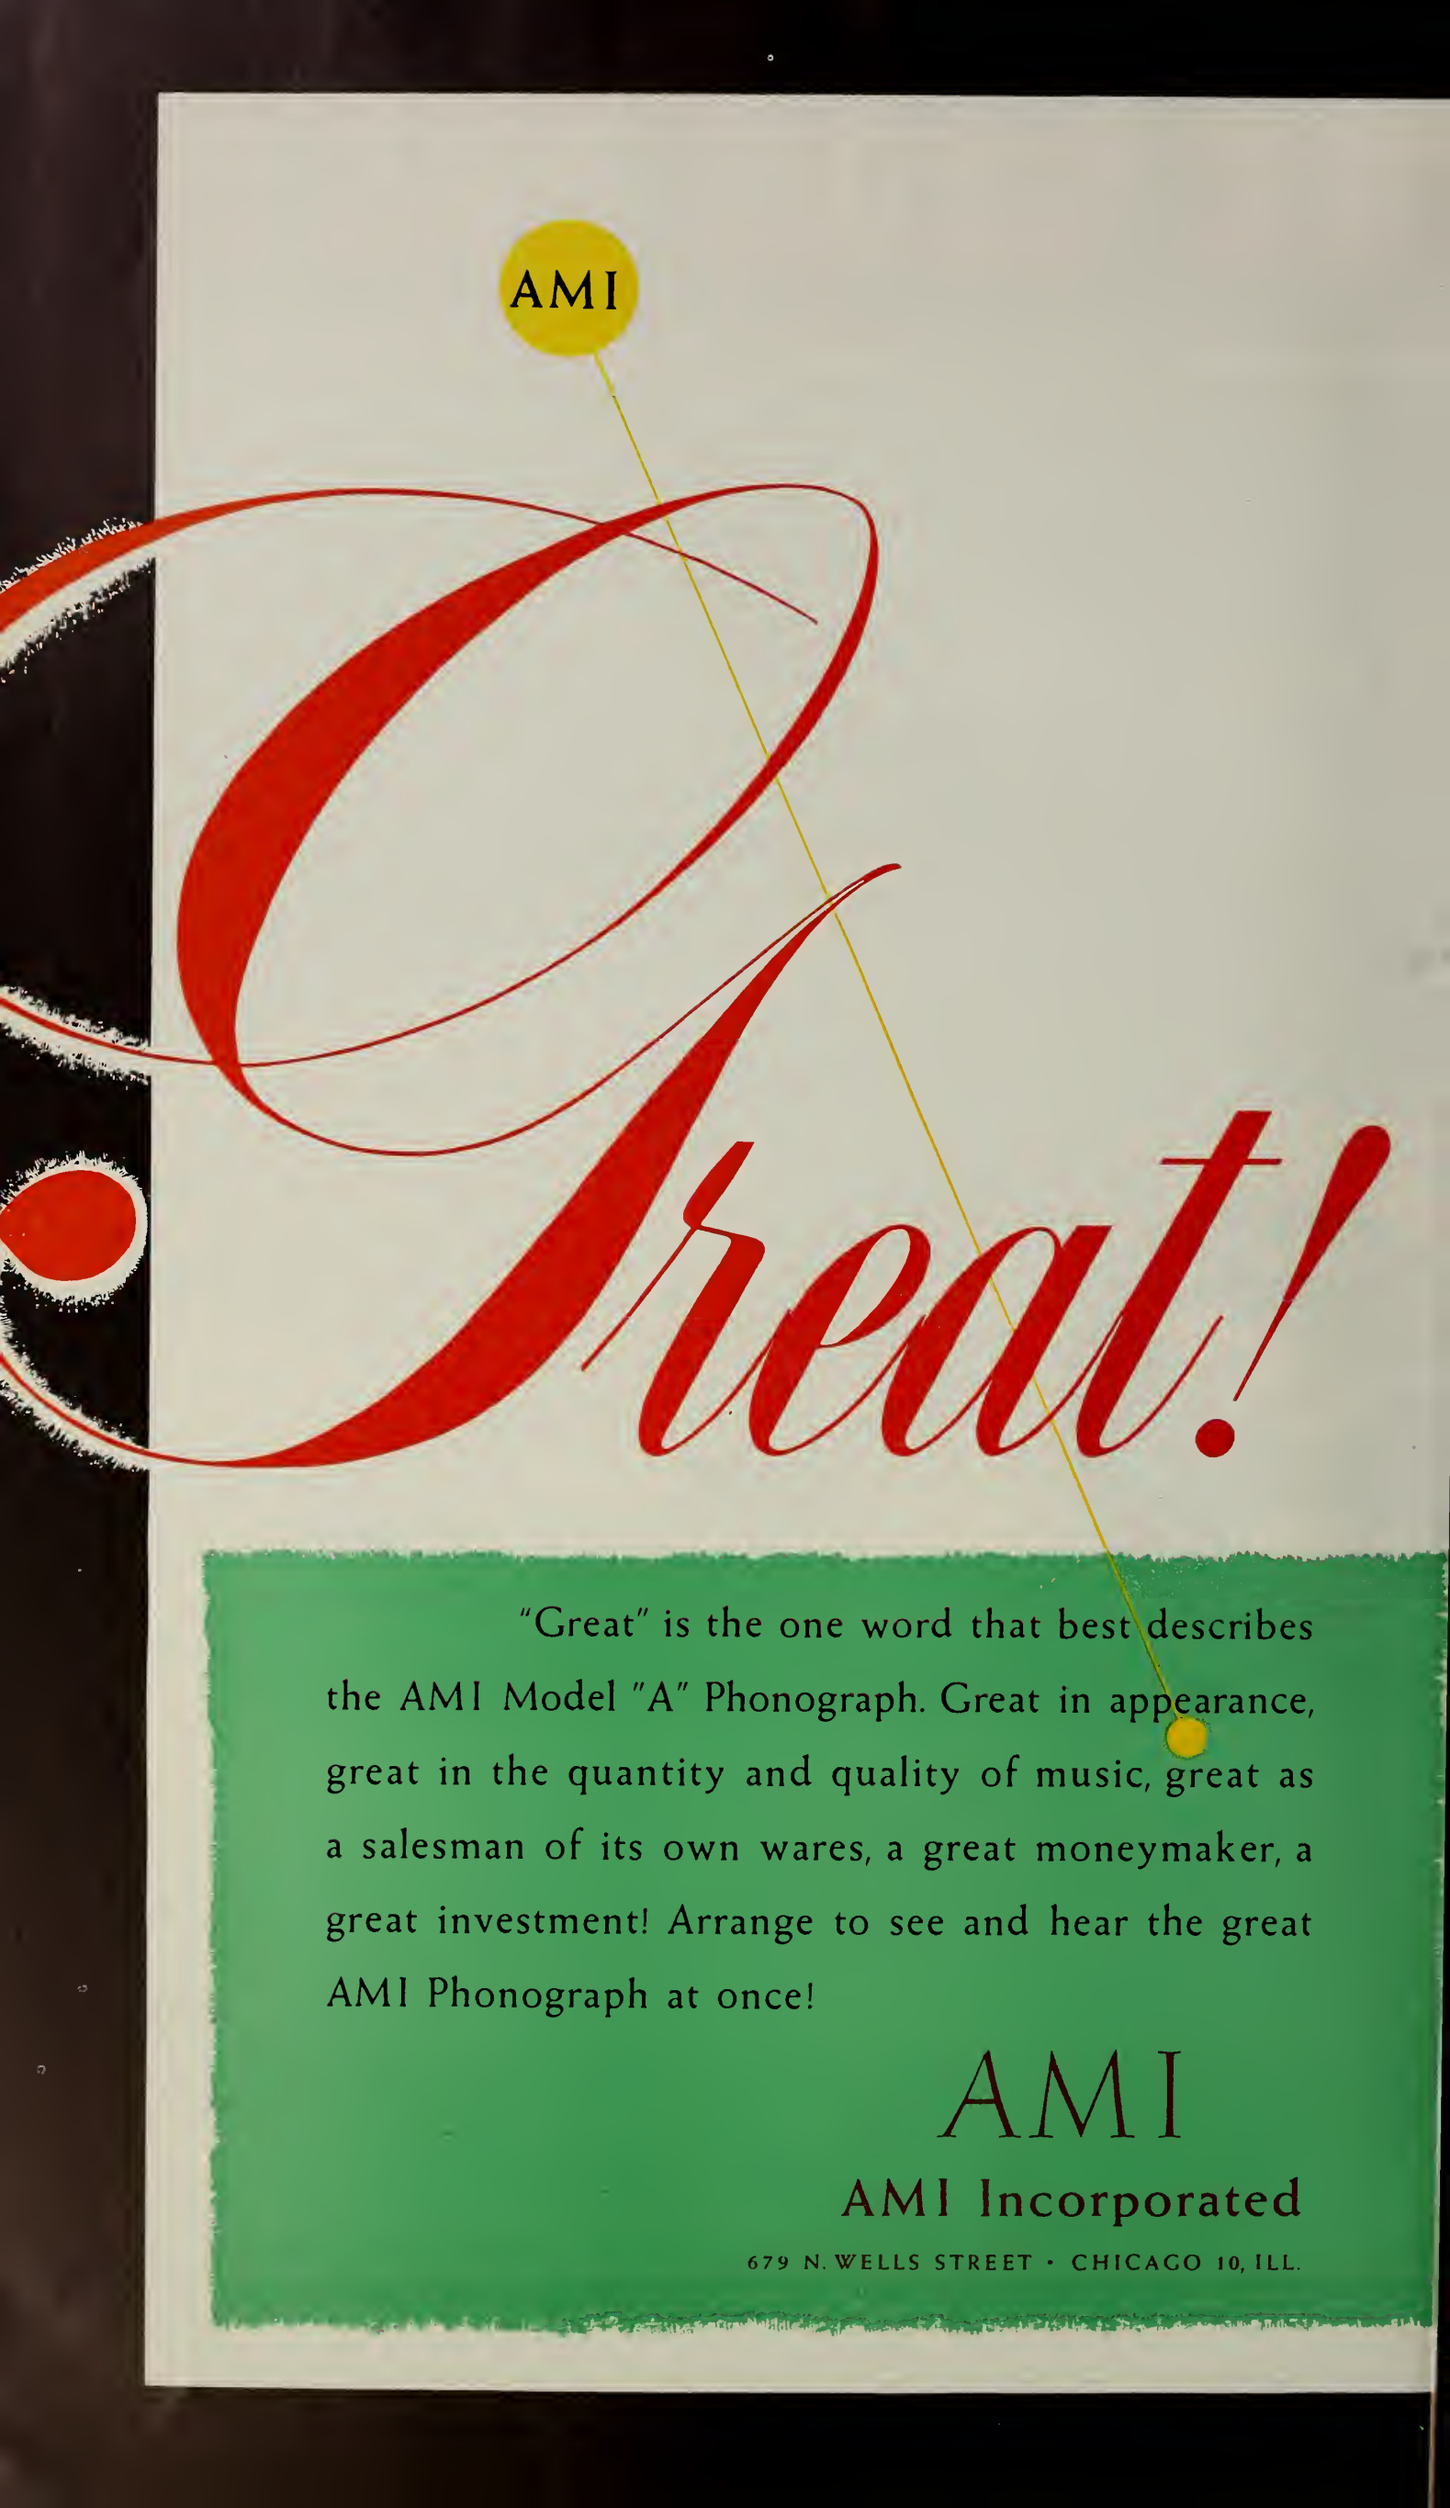
Millions are taking the tip . . . patronizing locations that display the *Sign of the Musical Note* on their doors, windows, counters and back bars.

Every location owner is awake to the fact that it will pay him to install Wurlitzer Music. Naturally, Wurlitzer Factory-Approved Music Merchants are finding it easier than ever to get and hold the best locations. The Rudolph Wurlitzer* Company, North Tonawanda, N. Y.

**The Name That Means Music To Millions*

WURLITZER PHONOGRAPH MUSIC

Watch WURLITZER EXTEND ITS *Leadership*



"Great" is the one word that best describes the AMI Model "A" Phonograph. Great in appearance, great in the quantity and quality of music, great as a salesman of its own wares, a great moneymaker, a great investment! Arrange to see and hear the great AMI Phonograph at once!

Preference

"COINTOONS"

By Bill Gersh

One of the outstanding hopes of all those operators, who continued thruout the wartime period, was that when the war did end and the post-war period got under way, they would be given what might be called, preferential treatment, by the wholesalers.

This was to be expected. These men struggled thru the war years with whatever equipment they had. When the war started few believed that the wartime period would prove to be anything but profitable. The fact that it was profitable, and the further fact that many became financially strong for the first time, helped all the industry.

In the tile trade, to digress for a moment and jump to a field which is entirely foreign to that of the coin machine business, there is what is known in this trade as a "preferential list."

On this list are those tile setters who continued to do business thruout the war period. They are now given first choice and first delivery of all tile that arrives at the local wholesale firms with whom they dealt.

Many tile men, just as did many coinmen, jumped out of their trade and into another when the war came on. They saw no future in their industry. Now that they have returned they are not being given the same preference which is being shown to those tile men who stuck it out during the war years.

Perhaps a "preferential list" might not be a bad idea for the coin machines business. It might help assure many of those coinmen, who worked to continue this industry during the war period, that they do deserve a little extra consideration from the trade generally, and therefore encourage them to go ahead and expand in the manner in which they should — now that the post-war period is here.

Whatever the plans of those firms who are now in the selling seat of this field — they most definitely should first include the men who continued this business and, by so doing, built a strong and solid base for this industry to go ahead during the post-war years.

Few like to feel that there is any preference being shown — at this time especially. Machines are slow in coming off production lines as yet — and the men believe that whoever puts his cash on the line first should get first delivery.

This may be the one and only way to do busines. Yet, among these men willing to put up the necessary cash are many who worked hard during the war years to keep this business going. Should or shouldn't they be given any preference at this time?

LEADERS SAY:

"MANY OPS MUST CHANGE METHODS IF THEY WANT TO STAY IN BUSINESS"

NEW YORK—For a long time now the cry has been heard that the average operator does not "merchandise" his business. He cares very little or pays very little attention to properly servicing his equipment or to the methods used by his servicemen and collectors and especially to the attitude of his employees to the location owners — as long as his route shows a profit.

If it shows a profit to him — then he is of the belief, leaders claim, that he is doing the right thing and that he will continue to be the leading coinman in his area. Many noted leaders in the field are upset over what they see as they once again begin to travel the nation.

They have found ops who care very little about the location owner's complaints regarding service, supplies, etc., etc. Durnig the war period *The Cash Box* warned many ops that they had best change their attitude and their methods for that lush period would end sometime — and probably in a very hurtful fashion for a great many men.

Some regional distribs, who cover much territory, claim that they have presented such facts to operators about locations and they have simply been ignored. They have, they believe, presented ops with truthful facts. They have shown them that they must now use the little courtesies which will cement them to their location owners. They have suggested they keep machines new and shiny looking, be sure that sufficient change is on hand in the location, and keep up a servicing schedule which will make the merchant proud and pleased to have such an operator.

These leaders now state that because this isn't being done in a great many instances they will have to do the job for the ops — by remote methods. In short, they will probably go direct to the locations with circulars telling storekeepers how good their machines are and the kind of service they get from the operators who feature their machines.

This goes right back again to the old location circular coverage and means that the ops are being pushed into something which they should do of their own accord.

The fact is that many an operator becomes blinded to everything else that he should do to continue a long-life business — but what he earns from the location. Some of the servicemen and collectors simply jump in and out of spots. Just count the money — pay off the location and hustle themselves right out — before the storekeeper can even ask them any questions.

With business methods changing every day — with new men eager to enter into the coin operated machine field — surely, then, these men must change their tactics and their servicing system to remain in this business and, especially, to retain their locations.

The operator who works on the theory that the "war is still on" is surely going to lose out — and lose fast — as new men enter into his territory. Merchants have a peculiar way of spotting the man they want to do business with — as many an operator has learned to his sorrow.

They simply will not long tolerate the sort of treatment they were forced to endure during the war period, when nothing was available and everything went. Now, with things changing for the better every day — storekeepers are receiving more courteous treatment from their own wholesalers in their own line — and they are beginning to expect this same sort of treatment from everyone with whom they deal.

It is up to the operator who hasn't already done so to rapidly change his methods — if he desires to remain in this business.

LEADERS SAY:

"MANY OPS MUST CHANGE METHODS IF THEY WANT TO STAY IN BUSINESS"

"RENT THE SPACE" IS BEST IDEA OPS CLAIM

NEW YORK—A few weeks ago *The Cash Box* brought the trade a suggestion that, where a better commission basis was too difficult to arrange and where "front money" could not be managed, then the op still had the opportunity to "rent" the space which his machine occupied in the location — and by this method obtain a better percentage of the receipts.

In short, it might pay many ops to pay three or six or even more month's rent in advance to the location owner — and arrange to lease the space on a regular yearly rental basis as concessionaires do at this time in many arcades and other locations. He could, by so doing, figure a rental which would average off the monies which the retailer received from him on a yearly basis.

Those ops who are using this system with certain locations claim that they have found it the best yet. These men stated that they believed this could be done by everyone of the coinmen without too much trouble and would eliminate long and windy arguments in regards to 70% commission or 1% of the gross installation cost or even $5 or $10 per week "front money."

Since publication of this suggestion a great many letters have been received by *The Cash Box* stating that, in the estimation of the majority of these writers, this is the best suggestion which has yet been put forth.

One op writes, "Have just tried out the suggestion which appeared in your last issue and can tell you that it worked fine. Went right in to the one storekeeper from whom we have been trying to get a better percentage basis and just figured out that he should receive $500 per year for the space occupied by our machines.

"Not only did he agree," this op continues, "when we handed him a check for half the amount in advance, but, he readily signed the lease that my lawyer arranged and from what we understand, according to my attorney, we now have a better arrangement with this location than we do with any other we have.

"This worked out so good we're going to try and see whether we can't get all of our spots on the same plan," he says, "for we believe that this is the simplest and easiest way to make a deal with the merchants. They sure do like to get a nice big check in advance and they feel that they don't have to worry about meeting the collector each week and going over the collections with him, etc."

Other ops also had nice letters to write in regards to this suggestion. One of these men claimed that he was already using the same idea with some of his better spots and had been using it for a long time. Now, he planned to spread the idea all the way down the line, into everyone of his locations.

One op writes, "The nice thing about setting up a concession idea of this kind and paying rent, based on a yearly rental, is that the location owner feels that the machine is no longer his worry and that he doesn't have to even think about it from any standpoint except to phone us when trouble arises or when he needs more change or something goes out of order. This makes the idea of leasing the space especially attractive to the retailer and, at the same time, it gets us something really solid for we are signing five year leases with our locations and haven't bumped into any real opposition as yet."

The idea of the lease is, in itself, extremely worthwhile to every operator. The victories already won in court cases by the members of the California Music Operators Association of Oakland, Calif. featuring the lease, has spread its use thruout the trade since *The Cash Box* first reproduced it. (It has been reprinted three times in the past year by request.)

The operator arranges a regular yearly rental basis with the location owner and pays him three or six or as many months rent in advance or as much as he desires and, naturally, which best satisfies the location owner, therefore, whatever he earns from the location is all his — while the location owner, too, is satisfied with the arrangement.

There are some legal angles involved — as for example where the location owner himself is renting the store and his lease reads that he is not allowed to sublet any part of his place. But, these instances are rare and so far haven't been met with by the operators who are adopting this type of method to better their commission set-up.

"RENT THE SPACE"

IS BEST IDEA OPS CLAIM

WHAT ABOUT NEW BLOOD?

What's Happened to the Flood of New Blood Expected to Enter the Industry?

NEW YORK—During the war the majority of coinmen feared that there would be a virtual "flood" of new blood entering the industry — the moment the war was over.

The war ended — and the new blood hasn't as yet flooded the trade. Many reasons were advanced for this phenomenon.

Among the most outstanding is the fact that there wasn't a sufficient supply of new equipment available to get these new men started.

Another reason that has been offered time and again is that the new men who desire to enter into the industry will not pay the prices now being asked for coin operated machines because they can't see their way clear to making such large investments without any profit guarantees.

These are the two arguments which are most outstanding. Many others have also been advanced — and new blood doesn't yet bust down the doors to get into this business.

Many have reported that they have been visited time and time again by these men desiring to enter into the coin machine trade but that, after consultations, these men usually sought other businesses or occupations.

It seems, of course, that certain Chambers of Commerce have also had their effect on the situation. These fine institutions have advised men who wanted to enter into the coin machine business to first be sure that they could obtain locations. The press has many times reported these Chambers as stating that there "aren't locations available to the newcomers who purchase coin operated machines."

In the merchandising machine division of the industry there is no doubt, coin machine leaders state, that much new blood will soon become noticeable. They reason that this is one section of the trade which will, because of so many different new machines on the way, seek for newcomers to operate these units and that new blood will take more readily to this part of the business.

In the amusement machines field there has been no big influx of new blood. Some, here and there thruout the nation, have reported that they have sold small routes of used machines to new entrants to the trade — but nothing of a nature to excite anyone in this division of the field.

In the music machines industry there has been some new blood introduced here and there in various territories — usually thru the purchase of a complete route — but even this hasn't been of such a nature to upset operations already in effect in the territories where these men have started.

In short, then, what's happened to the flood of new blood expected to enter into the industry right after the war?

Jobbers and distributors discussed the fact that dozens upon dozens of people would be rushing to this field to enter it immediately the war was over. It seems that all these predictions have fallen flat. It also now seems that it will be some years yet before any real influx of new blood is seen in the coin machine industry.

It's true that there aren't enough machines today to go around. The new machines have slowed down in production due to the lack of components. Used machines are pretty well worn and, in many territories, operators are seeking the new instead of the used because some new machines have already been introduced and this has excited the location owners. Therefore, these storekeepers will not accept used equipment. They believe that new machines are actually being held back from them. It's a problem for the coinmen in such areas, but they are ingeniously solving it.

What is most important, especially to many old-time operators, is the fact that the "flood of new blood" which was so much expected — has not materialized. It means that these men will continue to remain in control of their territories for sometime to come.

Eventually, of course, new blood will begin to slowly creep into the business as, here and there, ops will refuse to purchase more new equipment. This has happened in the past and will, without any doubt, also happen in the future. But, with the new type business men who are today in this industry — there isn't going to be that "rush" of new blood in the field, not unless a great many now in the trade decide to sell off complete routes of equipment to newcomers.

WHAT ABOUT NEW BLOOD?

What's Happened to the Flood of New Blood Expected to Enter the Industry?

ONE MFR. ANSWERS:

"Return to Early Type Replay Pinballs to Offset High Prices"

NEW YORK—One noted manufacturer of amusement machines (who has asked that his name be withheld) answers the question advanced in this past week's (August 26, 1946) issue of *The Cash Box* as to whether the public has lost the thrill of pinball play because machines have become too intricate with, "The public has not lost the thrill of playing pinball machines."

He claims that tho the average player, in years gone by, could walk up to any machine (called "bagatelle" at the time) and simply shoot balls for certain skill-score pockets and then add up his score and play on or quit, is not gone and forgotten.

He insists that pinballs are receiving just as much play as they ever did and that the so-called "intricate scoring" principles now common in most machines have not lost their play appeal.

"This is the evolution of the pinball machine," he states. "Perhaps it has gone on ahead to be more of a 'scoring' machine than just a 'fun' machine," he continues, "but this was simply the manner in which the game developed.

"For example," he says, "in territories where re-play was not allowed and where novelty games went back into action, what happened?" He answers himself with, "Just ask any of the operators in such territories. The take dropped. The public wouldn't play the machines. They wanted that incentive which makes pinball play so alluring to the average man."

He also states, "Regardless of how intricate and involved the scoring systems seem to be on the present games, and I'll admit that I can't understand a lot of them myself, yet the player is completely satisfied for, after all, the scores are always added up in re-plays for him. Therefore, whether he knows, or does not, know what he is doing — he still knows what he has scored at the end of the game — after his five balls are shot — because of the re-plays which appear openly on the scoreboard for him."

He insists, "In my estimation it's not the present intricate play of the pinball machine which has cut down on the operators' profits. On present models the operators get a big trade-in — comparative to the percentage of trade-in they received on machines which sold for $100 or less in the old days. The real trouble is that the games are high priced to a point where the operator has to actually fight to get his cost out of them in a great many spots. This is not the fault of the producers of the games. This is something no one can halt right at this time. The cost of component units and materials as well as labor is so out of line that there is simply no comparison between today's costs and the costs we had when we could produce machines for $100 or so."

This manufacturer does say, "I do believe that what should and probably what will happen will be a return to the early model re-play machines. The re-play unit is the key to the play appeal and to what the player wants. We can produce simpler machines, but, they will have to feature the re-play unit. This, perhaps, will cut the cost down and will, perhaps, still get as much play on location."

Another thing he brings forth is, "I don't believe that if one of the really old models, which many called 'Bagatelle', was placed on a location right next to one of the new model pinballs — that it would get any play to speak of. I feel that the reason for the success of any present model pinball is in the re-play unit and that this will have to be continued. Therefore, this means expense in electrical mechanism all down the line. The savings will not be very much. But, perhaps, they may be enough, in many cases, to make it worthwhile to operate such machines in certain territories."

He also states, "I want to take this opportunity of complimenting *The Cash Box* for bringing this very important subject to the fore. There is no doubt in my mind but what your article will cause a lot of people in this business to put on their 'thinking caps' and it may result in bringing the trade something which it has needed to know for a long, long time. Such articles, as you published in your August 26 issue, is what helps an industry to better understand itself and to take stock of itself. This is the sort of thing, in my estimation, which is making your publication the most outstanding in this field. You are to be commended for this effort."

RECORD REVIEWS

By Ralph Emmett OF "THE CASH BOX"

"Begin The Beguine"
"Night and Day"
Russ Case and His Orchestra
(Victor 20-1940)

● Here's a platter which should net heavy coinage thanks to the heavy accent being placed on Cole Porter melodies as a tie-in with the new motion picture "Night and Day." But, in addition, the version offered here by the Russ Case orchestra of the well known "Begin the Beguine" is worthwhile in its own right. All instrumental on both sides, the Case crew add some neat arranging tricks to "Beguine," to make it top musical fare for listening and dancing, and it's the side for juke box money. "Night" is offered in too swingy a fashion to get much play from customers who remember the melody and want it as a slow tempoed ballad with vocal. But thanks to the "Beguine" side, the platter is very solidly a profit maker.

"Merle's Mood"
"Memories of You"
Illinois Jacquet & His All Stars
(Apollo 760)

● Here's a pair of instrumental sides that should net interest and attention in locations where the demand is for jazz to be listened to and, perhaps, jumped to. "Merle's Mood" fits that category what with the Illinois Jacquet crew all on for a ride with the solid light-stomp melody. Flipped, they deliver "Memories of You," which is strictly a "race-type" blues that spotlights the mournful sax handled by Illinois. It's a listener's item, that should net heavy favor in the right locations.

"East Bound Freight Train"
"Get Things Ready"
Grandpa Jones
(King 545)

● Here's a pair of sides fitted right for the hillbilly slots, and when their properties are considered, they have the stuff to score. "East Bound," as done by Grandpa Jones is in slow tempo and keyed right for the story of the lad who plans to go back home. The flip, "Get Things Ready (for me, Ma)" tells another homesick story, but this time Grandpa tells his tale in a more sprightly mood. Backing him all the way are well handled guitars that'll draw favor from the customers. If you have the location for it, give this disk a listening.

"After All We Have Meant To Each Other"
"The Way I Love You"
Henshaw Hawkins
(King 544)

● For a pair of folk songs done in a romantic vein, this pair done by Henshaw Hawkins is worth a listening. Backed by a string band, that adds to the mood he creates vocally, Henshaw carries off the melodies, "After All We Have Meant To Each Other" and "The Way I Love You," in the style to which the customers for this brand of music will appreciate. At any rate, give the disk a listening. It may be that they are exactly right for some of your locations.

DISK O'THE WEEK

★ ★ ★ ★

"Big Foot Sam From Birmingham"
Sam Taylor and His Alabama Swingsters
(Queen 4126)

● Top choice as a nickel snatcher for this week is "Big Foot Sam From Birmingham," as contributed by Sam Taylor and his Alabama Swingsters. It's a "race" record, so we're told, but as a jump novelty it should find a place wherever they want good, solid jiveroo. And that Sam does provide. The melody and lyrics are simple, built around a few bars and a few words, but so was that other ditty you remember as "Hey! Ba-Ba-Re-Bop." And "Big Foot" is patterned from a like mold. It's Sam's show as he delivers the thumping lyrics, with the entire ensemble backing him up in chorus. It's good, it's catchy, and it's a commercial job they offer here, and it's a side that should get a big, profitable welcome from the customers. Flipped, the boys do "Bluer Than Blue," which is a pure instrumental blues with heavy accent on the sax. They do a superior job with the melody and if the type fits your route, this platter is a top notch bet. Hear it.

"South America, Take It Away"
"Just The Other Day"
George Paxton and His Orchestra
(Majestic 7202)

● Here's another version of that money-making latin novelty, "South America, Take It Away," and, as it is offered here by the George Paxton Orchestra with Rosemary Calvin on the vocal, it's one of the better versions to be heard around. George's arrangement is spirited, and the warbling served by Rosemary is among the better performances we've heard of the ditty. Flipped, the crew offer "Just The Other Day," which is a bit dated for the boxes. On this side, the interpretation executed both by the Paxton crew and by Rosemary Calvin fall short when compared to other cuttings of the melody, but as a supplement to "South America," which is truly worthy, it passes.

"Haunted By The Blues"
"What You Puttin' Down"
Effie Smith
(Aladdin 152)

● Once again up comes a pair of sides done by Effie Smith, who is a likely contender for a top spot among the boxes in "race-type" locations. On this platter she goes into a deep, somber mood for "Haunted By The Blues," which is a good melody, even if others of a like pattern are a dime a dozen on the racks. So, what does carry this one off can all be credited to Effie — and the strong support she gets from Buddy Harper and His All Stars on the instruments. Flipped, they do "What You Puttin' Down," which is strictly intended to help keep the location jumping. Give this platter a listening for the benefit of your Harlem-type locations, it is at least worthy of that.

"To Each His Own"
"You Might At Least Have Said Goodbye"
The Esquire Trio
(Rhapsody 109)

● Here's another version of the nation's No. 1 Melody, "To Each His Own." This one, contributed by the Esquire Trio, does offer something of interest to music ops with locations where the demand is for melody performed by small combos. Considering the platter from that aspect, it's a worthy offering. The Esquire Trio performs in lots better than ordinary fashion, and their style should be found of commercial value on the boxes. On the backing, "You Might At Least Have Said Goodbye," the trio, working their piano, bass, accordion and voices, register well with the fair torch ballad.

"The Hills of El Cajon"
"I'm Changing Places"
The Esquire Trio
(Rhapsody 103)

● One of the more pleasant offerings of the week for locations where Western-Folk music is in demand is this performance of "The Hills of El Cajon" by the Esquire Trio. In addition to a neat melody and good lyrics, the trio add an interpretation that smacks of something Latin, and vocally and instrumentally they carry off the side in arresting fashion. Give it a listening, it's worth it. Flipped, the lads again come up vocally and instrumentally in interesting fashion and this time it's with "I'm Changing Places." The tune is cut from a pattern established in the twenties, and if your locations are seeking something of that flavor they may like this one.

EXCLUSIVE TO "THE CASH BOX" RECORD REVIEWS

By DAVE QUIRK
RECORD REVIEW EDITOR OF "THE CASH BOX"

"Osculate Me, Daddy"
"Mean To Me"
Etta Jones
(Victor 20-1941)

● Etta Jones hands out a good blues number called "Osculate Me, Daddy." Her style is especially pleasing because she doesn't dig down too deep in the cellar before she settles down to work on the song. She does a nice job on "Mean To Me" by singing it fairly straight. The orchestra led by J. C. Heard switches to a fast pace after the first chorus and then goes into a slow drag for the finale. This disk is strictly for listening but will bring in a fair amount of coin.

"Just Give Me A Man"
"Do You Know The Game?"
Mabel Scott and Orchestra
(Hub 3029)

● Mabel Scott's version of "Just Give Me A Man" comes out on the purple side. She sings with gusto and the orchestra is pretty much in the background all the time, but it's a good buy for the Harlem and Central Avenue locations. "Do You Know The Game?" is in the same vein with Mabel Scott warbling the vocal for all she's worth and the band beating it out in jump time. Head it for the spots that appreciate this sort of thing and it'll sell.

"There's A Rose That Grows In The Ozarks"
"I Was Wrong"
Eddie Dean and His Boys
(Majestic 11001)

● Eddie Dean and His Boys give out with two better than average hillbilly songs and both will start the tears flowing in the beer parlors. "There's A Rose" and "I Was Wrong" are romantic numbers featuring Eddie Dean on the vocal. His boys furnish the accompaniment in what seems to be the accepted code of the hills—lots of guitar, fiddle and a steady beat. The locales strong for this type of music will give it a good play.

"Behind Closed Doors"
"I Know Who Threw The Whiskey In The Well"
Manhattan Paul and Orchestra
(Hub 3027)

● For a little sweet and low down swing Manhattan Paul and his Orchestra go to work on a number entitled "Behind Closed Doors." Manhattan Paul softly sings about how nobody knows what goes on behind closed doors and how nice the whole situation is. The instrumental portion of this side of the disk is pretty well restrained. "Whiskey in the Well" has a lot of fast jive and an even faster vocal done up as a spiritual chant. Paul is aided by the band on the vocal. Both sides will wear smooth faster in the race spots than any other place.

SLEEPER OF THE WEEK

"Twilight Song"
Claude Thornhill and His Orchestra
(Columbia 37065)

● Claude Thornhill is a past master at presenting smooth, serene, relaxing music and that's just what the maestro has to offer on this week's Sleeper. "Twilight Song" is a perfect accompaniment for dancing, dreaming, or even an afternoon coke. The disk opens with some of that easy-to-take Thornhill piano and blends fluently into the tune itself. Buddy Hughes dishes out a well sung vocal giving it just enough romantic treatment. The band earns the prize money on this spin though. "Under The Willow Tree" is the running mate and it has a lot of bounce. Good dance tempo. Hughes again handles the lyrics. Listen for the abrupt ending. Good double feature bargain for all locales.

"The Curse of An Aching Heart"
"The Golden Links Are Broken"
Beatrice Kay
(Columbia 36939)

● It's about time the tunes of the Gay Nineties were put on wax and Columbia has now done it featuring Beatrice Kay. There are eight sides altogether but space prevents us from reviewing all of them. Included are such gems as "Saloon," "If I Was A Millionaire," "And Yet I Don't Know," and "Steamboat Bill." Miss Kay is well-known to all because of her radio show and the sob in her voice plus all her other tricks are right here. She's assisted by the Elm City Four and Paul Baron's Orchestra. These disks will be received enthusiastically by the young crowd as well as by their elders since they're good for lots of memories and laughs. They'll spin their way into the pay dirt everywhere.

"Nothin' You Can Do"
"Effie's Boogie"
Effie Smith
(Aladdin 151)

● Effie Smith pours all the anguish she can muster up from the depths of her tortured soul on "Nothin' You Can Do." It's about as blue as they come and she gets right in the mood on her vocal. She's assisted by Buddy Harper and His All-Stars and they do pretty well by her. The pace would probably seem slow even to a snail, but on this type of a song it's all right. The reverse brings "Effie's Boogie" to the top. It's all vocal with a few brief instrumental breaks to give her a breather. The biggest business will come from the race locations.

"Somewhere In The Night"
"One Love"
Frank Sinatra
(Columbia 37054)

● The way Frank Sinatra sings these two romantic ballads, you'd think they were written for him alone. "Somewhere In The Night" has everything to make it a smash hit—pretty melody, nice lyrics, lots of nostalgia, etc. Then add Mr. Sinatra and Axel Stordahl's Orchestra and it just can't miss. If you like this side, flip it over and get some more of the same on "One Love." This is very smooth, appealing music and it's guaranteed to pull in profits in all locations.

"Paradiddle Joe"
"Makin' Whoopee"
Tony Pastor and His Orchestra
(Cosmo 500)

● The fans addicted to stomp will rush the jukes to play and replay "Paradiddle Joe." The band is good and hot, and the drum work by Henry Riggs is terrific. Tony Pastor injects a vocal chorus between the scorching solos on the skins but the record belongs to Riggs. The flipover is "Makin' Whoopee." The lyrics are definitely on the suggestive side, so it would be wise to keep it out of hearing distance of the strait-laced crowd. "Paradiddle Joe" is worth the price alone though—so give it a try in the jive spots.

"I Ain't Talkin' "
"He Didn't Ask Me"
Pearl Bailey
(Columbia 37068)

● Whether she's singing on the stage, in a night club, or from a juke box, Pearl Bailey captivates her audience with her own inimitable style. In "I Ain't Talkin' " she sings of a broken love affair, but instead of lighting a torch she just smiles with her voice—maybe it's even a smirk. But anyway the effect is good. "He Didn't Ask Me" is a cute number too and she winds it up with a few well spoken words as usual. The instrumental backdrop is ably furnished by Mitchell Ayres and his Orchestra.

What's Not ON THE RECORDS

THE TOP TEN ALBUMS NOT TIMES TRADING TIE OPTION

Music Ops Ask More Title Strips

NEW YORK—Results of the recent request made by *The Cash Box*, that music operators air suggestions thru which record manufacturers could promote better relations with the juke box trade, disclose that in many territories thruout the country, title strips for records bought for phonos are not being supplied. In addition, many ops report, where title strips are supplied, they are not being distributed in sufficient quantities to be placed in wall boxes.

"Title strips are just as beneficial to the record manufacturer as they are to us," wrote one leading operator, "and it's difficult to understand why some of the record manufacturers are apparently so negligent in making them available to us.

"In the last few months we have been receiving quantities of strips from some of the labels, but others, who provided this service prior to the war, are giving us nothing.

In the matter of wall boxes, it was pointed out by many, ops often require as many as fifteen or twenty strips per record, and to have printed title strips for these installations represents a substantial saving in time and money currently used in typing the required information.

Others pointed out that the printed title strips made a neater display on the equipment, and provided customers with information that would assist them in making their selections.

Mexico City's Top Ten

Below are listed the ten top tunes on juke boxes thruout the Mexico City area. The list was prepared for The Cash Box by Magdalena Reyes of Casa Riojas, Wurlitzer distributor for that territory. The list is printed here both as a service to our Mexican subscribers and as an aid to all music operators and record manufacturers who are seeking the latest and most popular in Latin American music.

1. CONOZCO A LOS DOS
   Bolero
2. TRAICIONERA
   Bolero
3. ALMA LLANERA
   Joropo
4. POR LA CRUZ
   Bolero
5. LAGRIMAS DE SANGRE
   Bolero
6. NO VUELVO CONTIGO
   Bolero
7. CUANDO CANTA EL CORNETIN
   Dzon
8. LA BAMBA
   Son Jarocho
9. LA BARCA DE ORO
   C. Ranchera
10. HACE MUCHO TIEMPO
    Fox Trot

"IF IT'S GOOD — WE HAVE IT"

BYRDE'S EYEVIEW 'ROUND THE WAX CIRCLE

by Byrde Gore

This week's mailbag delivered a note from music op Bill Gilles, Gilles Amusement Co., Osage, Ia. And he writes, "South America, Take It Away is a 2nd 'Rum and Coca Cola.' Tell the boys to get hot on it for a lot of nickels." . . . Okay, Bill. We're telling 'em. The number rang the big bell some weeks ago, when it zoomed into the No. 1 spot in New York, and had lots of ops been watching the play of platters in other cities (see page 11), they might have picked it up lots faster. Matter of fact, evne tho it's among the top ten now in the national chart (page 8) many sections of the country have yet to pick it up. Nonetheless, if you should happen to come upon a platter that runs into the top money in a hurry, pass the news along to us, and we'll pass it on to the trade. Thanks, Bill, for starting something that should be a helpful habit on the part of every op in the land.

* * * *

Charels Browning, editor and publisher of the Chicago "Defender," has joined Hamp-Tone Records in a big way. After a day long visit in New York, he returned to Chicago, and will take off for the West Coast this week to consult with officials of the parent company, Musicraft, and with Gladys Hampton, prexy of the new label. Then he goes out across the country in an effort to get Hamp-Tone platters on the boxes . . . In all areas where National Records had distribution arrangements, the label will continue to be vended thru the same outlets. In all others, Cosmo distribs will take on the line. So says Al Green, National prexy . . . With the return from the West Coast of Oliver Sabin, vice pressident of Musicraft, several announcements are expected in the matter of sales policy. Meanwhile, production of the label is expected to be doubled as their new Ossining (N. Y.) plant reaches completion.

* * * * *

Al Middleman, the power behind the Sterling and Juke Box labels, will soon erect a milling factory in the East to vend "biscuits" to other record makers. Soon to be hatched are an additional four platters from which Al expects at least one side to achieve the fame and demand of his well known "R. M. Blues." . . . Here's a hint to Chicago music ops from Les Kramer at Majestic Records: On Sept. 13th, Louis (Play Pretty For The People) Prima lands for a four week stay at Chicago's Sherman Hotel, and his appearance there, says Les, should put him in heavy demand on the juke boxes thruout the territory. "Please," pleads Les, "place Louis' disks accordingly."

* * * * *

Cosmo prexy Harry Bank is smiling happily these days over having inked the Joe Mooney Quartet. It so happens that no sooner had the deal been consummated when "Down Beat" headlined Mooney's crew as "the most exciting musical unit in the U.S. today." And that makes 'em sound like a really valuable piece of property .. . Jack Williams, the ad man at RCA-Victor, is vacationing . . Disk makers are united in the claim that what with increasing costs of shellac, etc., it's becoming increasingly difficult to profitably vend a platter under the 75c list. In addition, they urge ops to regulate tone arms so as to maintain the lightest possible pressure on the disk. This, they say, would give platters twice as much life expectancy under the juke box needle.

Reports Spirituals Wanted

NEW YORK — Irving Katz, sales manager of Apollo Records, headquartered here, who returned recently from an extensive tour of the deep South, reports a tremendous play on spirituals on juke boxes located in the more remote areas of the territory.

"The older folks who frequent 'race' locations in areas away from the larger communities comprise an influential following for these spiritual platters," Irv declared, "and the wise operator and record maker would do well to take note of this trend and act accordingly.

Leuenhagen Appt'd To Vend Rhapsody Label to Ops

LOS ANGELES, CALIF. — William H. Leuenhagen, well known coin machine distributor in this city, has been named to distribute Rhapsody Records to music ops in this territory, it was announced this past week by Larry Jackson, who handles distribution for the label thruout Southern California.

Under the agreement reached between Leuenhagen and Jackson, Bill will concentrate on sales to the juke box trade in this area; his wide following and past experience among coinmen here is expected to serve well in placing the label with the ops.

Automatic Music S-P-R-E-A-D-S — As Showcase For Disk Makers — As New Fields Open For Ops

■ ■ ■ ■

NEW YORK—Of interest to operators and record makers alike are the many opportunities present and future to be found in the commercial music industry.

For the operator this is a chance to expand his business into the many channels which have stemmed from the time when the amplification unit and the "life time" needle opened the way for the juke box.

For the record maker this information is of interest because it illustrates the tremendous sales potential, direct and indirect, that this industry affords him.

This is the list to consider:

1. The juke box, with its wall boxes, bar boxes and hideaway systems.
2. Wired (telephone selective music.
3. Non-selective (single channel-wired music.
4. Wired music for industrial, business and professional locations (not coin operated), selective and non selective.
5. Music on film.

These are but a listing of four major fields in music offered thru equipment developed by the coin machine industry. When the ingenuity and imagination of enterprising operators is added to these, the possibilities — and profit — become unlimited.

C.M.I. BLUE BOOK

FOREWORD Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depends on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD The C.M.I. Blue Book should be read as follows: First price listed is lowest price for the week: Second price listed is highest price. Where only one price appears this should be considered lowest price.

IMPORTANT Machines underlined mean these were most active in trading the past week.

CODE Check this code carefully. Become acquainted with each one of the code numbers and what they signify. These code numbers appear in front of the name of each machine.

1	MEANS PRICE WENT UP.
2	MEANS PRICE WENT DOWN.
3	MEANS MACHINE JUST ADDED TO LIST.
4	MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK.
5	MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6	MEANS NO PRICES QUOTED FOR PAST TWO WEEKS.
7	MEANS NO PRICES QUOTED FOR PAST THREE WEEKS.
XX	MEANS NO PRICES QUOTED FOR MANY WEEKS — PRICE SHOWN IS LAST KNOWN QUOTATION.

IMPORTANT NOTICE

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange — posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration.

THE C.M.I. BLUE BOOK REPORTS EACH QUOTATION EXACTLY AS IT IS MADE AND DEPENDS ON THE SUBSCRIBER TO MAKE AVERAGE PRICE ADJUSTMENT TO FIT THE CONDITIONS IN HIS OWN TERRITORY.

WHISKEY AND BEER PRODUCTION UPPED

Secretary of Agriculture Anderson Authorizes 20% More Whiskey and 21½% More Beer. Grain Restrictions Eased. Coinmen See Return of Better Collections.

WASHINGTON, D. C.—There is no doubt that coinmen thruout the entire nation will be elated at the news which emanated from the offices of Secretary of Agriculture Anderson, this past week, allowing distillers to manufacture 21½% more whiskey and brewers to brew 20% more beer.

This is the result of the Secretary's easing of restrictions on grain. Beginning this week brewers will be permitted to use 85% as much grain for the manufacture of beer and ale as they used in the similar months of 1945. -At present they can use only 70% of their 1945 consumption.

Distillers were authorized to use approximately 3,000,000 bushels of grain, other than wheat, a month, instead of the 2,500,000 bushel quota.

Easing of the restrictions was made possible by the 1946 record wheat crop.

What is most thrilling to the members of the coin machine industry is the fact that the lack of beer and whiskey had cut down collections on thousands of locations thruout the country.

Many territories reported "dry" taverns which held open only one or two days each week. Others stated that many of their best tavern locations had closed down for two and three week stretches and conserved their supply in this fashion. Others closed at early hours. In general, play on all types of machines was affected and the take dropped alarmingly in many sectors during the past hot months.

Now, with restrictions eased, coinmen believe that these spots will once again return to normal and that they will see the take zooming back to former proportions. One coinman reported sometime ago, "Taverns here are just as crowded as ever, in fact, some of them have even greater crowds of workers now. But, with no beer or whiskey around, we have been losing plenty."

This is sure to be ended with restrictions eased.

Frozen Food Buying Habits Studied

Are of Interest to Coinmen Who Want to Place Frozen Food Venders

NEW YORK — With many coinmen planning to purchase the first frozen food venders which will be placed on the market, a study just made of the habits of frozen food buyers in the various income groups, just completed by the industry's packers, will prove of great interest.

Frozen food sales for last year were placed at 600,000,000 pounds. Sharpened competition and other factors have brought predictions that the frozen food business will be trebled in three years.

With this study, it is reported, the packers are understood to be preparing against the time when they are able to offer a more varied selection of products and the market becomes a buyer's one.

In an income breakdown it was learned that more than 42% of the frozen food purchasers were in the $2,000 to $4,000 income bracket; 48% between the $4,000 and $5,000 group and 10% in the $5,000 plus class.

65% of the housewives responding to the survey stated that frozen food prices are "about right" while 35% complained they were "too high."

Regarding the reasons for patronizing the brands they are buying: Easy to get, claimed 37%; Regularity of quality, said 30%; always fresh, 15%; 5% bought on the clerk's advice.

Those answering where they purchased their frozen foods gave the following answers: Grocery or delicatessen 48%; supermarket 16%; frozen food specialty store 16%; department stores 13%; chicken shops 6%; and dairy stores. 1%.

The frequency with which frozen foods are served received the following replies: Twice or once weekly 58%; 9% serve the products less than once per week. None serve them daily. 4 to 6 times weekly averaged 19%; 3 times weekly 14%.

Six-helping packages were said to be preferred by 57% of those responding, while two-help packages were favored by 43%.

About 77% found no fault with the present size packages.

It will be noted from the above survey that there are as yet a great many problems confronting the producers of frozen foods prior to a more "standard" product.

The vending machine operators have stated that one of the reasons they believe that frozen foods are as yet far from perfected for vending operation is due to the fact that packages have not as yet been standardized as they are in the cigarette machine field. This is one thing which all coinmen interested in the frozen food venders hope will soon come about.

More national advertising is also needed, some coinmen state, to more greatly popularize frozen foods to all housewives. Variety is also needed.

In general, the frozen food producers have as yet a long way to go to make their product acceptable to the average vending machine operator.

Noted Doctor Finds Music Proves Helpful to Hospital Patients

NEW YORK—The physiological and psychological benefits of music for hospital patients are described in a report just released by the Russell Sage Foundation and written by Dr. Willem van de Wall.

After surgery for fractures, it is reported, music is a helpful aid in corrective exercises, restoring muscle tone and preventing joints from stiffening and muscles and tendons from contracting. Dr. van de Wall said that music prods tired tissues into movement and encourages the patient to stick to what otherwise might be a boring grind.

In the majority of cases the effects are psychological, according to the Doctor. He mentions two aspects of listening to music that makes it especially useful in hospitals. First, it is a "pleasurable activity" and second, it strengthens the ill and the weak against a tendency to preoccupation with their ailments.

Dr. van de Wall claims that music can be most helpful to persons suffering from mental disorders. It releases emotional tensions, he reported, as a first step toward elimination of abnormal modes of thought and conduct.

Certain precautions must be taken, he stated, and musical activities must be under medical direction and control.

MGA URGES OPS TO OBTAIN BETTER COMMISSIONS

NEWARK, N. J.—LeRoy Stein, executive director of the MGA (Music Guild of America) organization of juke box operators in this state, in his latest letter to the members of this group entitled "Profit Sharing" gives some very pertinent reasons why music machine ops must obtain a better commission basis.

In part of his letter he states, "It is our duty to impress upon our customers the need for 'equitable profit-sharing'. It is expected that our investment and labor will net us a fair return. Any income less than that which allows us average profit is a return 'below the cost of operation.'

"Right now," he continues, "our commissions not only do not net us a fair return on investment, but actually compel us to operate at a below level cost of doing business. To stay in business and serve our customers fairly, to give them their choice of the latest records, good equipment and efficient repair service at all hours — days, nights, Sundays and holidays, we must earn more from our routes. Only the weak and ignorant operators will continue under the present terms of commissions established eleven years ago."

BOSTON POST DEVOTES FULL COLOR PAGE TO "THE JUKE BOX GOING EXCLUSIVE"

BOSTON, MASS. — "The Juke Box Going Exclusive" appears as a full color page in the feature magazine section of the "Post" here written by Wendall Hazen.

The item, naturally, concerns itself with the new, non-selective music boxes and Hazen reports, "Soon, if present plans of the juke box manufacturers bear expected fruit, it will no longer be possible to enjoy the music of the other fellow's nickel."

He continues, "No longer will the lover of real hot hits be able to wander into his favorite restaurant, or lunch cart, settle down to the enjoyment of coffee or a hamburger, if and when there is any hamburger, and listen to a juke box concert so thoughtfully and generously provided by another's money."

He writes, "Instead of a general loud speaker system with coin boxes, each carrying its own index of records available, right at your elbow, the new setup will bring individual listening.

"For," he continues, "in the proposed, revolutionary change, each table or booth will have its own private listening unit."

He continues to tell about the fact that there will no longer be any "free concerts" and reports that the individualized music boxes which are contemplated will probably change the entire juke box present day setup.

He winds up his story with, "There's the social side, too, to be considered. Juke box players are a convivial lot, congenial, used to the give-and-take of this most democratic form of musical indulgence. But that, too, will pass.

"There's nothing chummy or convivial about playing a phonograph record all by yourself, with only yourself to hear it.

"It's going to mean more than just not being able to get your musical entertainment with the other fellow's nickel. It's going to be almost a revolution.

"Already there are whispers of an organization that will have for its sole purpose the preservation of the rights of the juke box players everywhere."

Tavern Clicks With New Sound Films

HOLLYWOOD, CALIF.—The "Vagabond Isle" tavern at 6202 Santa Monica Blvd., this city, is reported to be clicking with the new sound films just produced by Quality Pictures, according to W. Merle Connel of this picture firm.

Connel explains that the "Vagabond Isle" sought a new way to keep its patrons interested in the place and combined with the efforts of owner Klayton W. Kirby and his operator, they devised the type of Panoram arrangement seen in the above picture.

Not only has this worked out to the advantage sought by both men but has even surprised them in the fact that the collections are high and have continued high at a very steady pace.

"One of the things both men learned," Connel explains, "is that they must have a more frequent change of films. We have been able to supply this with Quality Pictures and we know that if other operators will work on this same basis and develop locations in the same way that they, too, are going to profit just as much as this local operator is now doing."

Connel is reported to have worked out the arrangement of this Panoram screen set-up with the op and to have also advised him regarding the type of film to be used in this sort of location.

K. C. Bans 14 Year Olds From Playing Pinball

KANSAS CITY, MO. — The City Council Committee did not approve an ordinance here, this past week, which would lower the age limit of persons who may be allowed to play pinball machines from 16 years to 14 years. Police Lieut. Doral L. Denison favored retainment of the 16 year old age minimum for pinball players.

Signs Vivien Garry

HOLLYWOOD, CALIF.—Leon René, president of Exclusive Records, uses the mural map in his offices to explain Exclusive's distribution to beauteous Vivien Garry, new singer who has just been signed to record with Buddy Baker's orchestra.

Vivien, who also plays bass and sings with her own "Vivien Garry's Trio," is described by Buddy Baker, Exclusive's musical director, as "Another Fitzgerald."

René predicts that the Baker-Garry discs will prove "Sure-fire nickel getters in all juke boxes in the country."

Omaha Paper Publishes Federal Tax List

OMAHA, NEBR.—Featuring a cartoon of Uncle Sam smoking a cigar and a woman playing a Bell machine, with the nickels pouring out into a sack held by Uncle Sam, who seems to be slyly smiling, the Sunday Omaha World-Herald published a complete list of all Nebraska towns and cities which paid the Federal Tax for the 12 months ending August 1, as well as the number of machines on which they paid.

The list was taken from Federal records in this state and is bound to upset many of the locations here, coinmen complained.

This same type of publication appeared in the Cincinnati, O. area some months ago and was the cause of losing a great many locations to coinmen after they had paid their Federal tax in compliance with the law. At that time a movement came about for a delegation of coinmen to visit in Washington and ask that these lists be kept secret by the Federal Government.

Vendo Coin Changer in St. Louis Dept. Store

ST. LOUIS, MO.—The Vendo coin changers (which received much publicity in the Saturday Evening Post sometime ago) appeared in the Famous-Barr department store here, and attracted much attention from the press.

Two of the machines are located on the third floor, near the telephone booths, and, according to department store officials, have more than offset their rental of 35c per day by eliminating hundreds of requests for small coins made daily of clerks at counters adjoining the phones.

The machines are manufactured by the Vendo Co. of Kansas City, Mo. and, according to the Universal Distributing Co., this city, distribs for the machines, they rent for $8 per month or sell outright for $125. Universal report that they have already placed 25 of the machines in this city in stores, bowling alleys and manufacturing plants.

(Coin changers are also manufactured by Bell Products Company, Chicago, Ill. and the Bell Aircraft Corp., Buffalo, N. Y. These two are electrically operated, whereas the Vendo is manually operated.)

Hartford to Tax More Coin Machines

HARTFORD, CONN.—The Common Council of this city having recently passed an ordinance taxing pinball machines $35 each annually and juke boxes at the rate of $15 per year, is now planning to tax even more coin machines located here.

According to Alderman E, Edward Kaminsky, president of the Common Council, he will discuss with Republican aldermen at a caucus "the question of additional revenue for the city, including the taxing of cigaret, candy and all other types

Vending machine ops here are much upset over the announcement and are planning to fight excessive taxation of their business. It is believed here that the ordinance which taxed pinball and juke boxes and which was not fought by the coinmen has encouraged the council

New Nickels Jam Coin Chutes

NEW YORK—Reports being received from coinmen all over the country are to the effect that the new "nickel" nickel is jamming coin chutes on all types of equipment.

These men complain that servicemen are having their headaches for the new nickel is slightly thicker than the wartime nickel-less nickels and their heavier edges are therefore creating coin chute jamming.

The Government announced, last month, the new nickels work the same as any others in coin machines, but they don't work the same in machines that aren't equipped with plungers. Most of the tie-ups are in juke boxes and other machines where the nickel works on the gravity theory.

These new nickels, according to ops, are the biggest headache since the copper-less wartime pennies.

Mints are now turning out strictly pre-war nickels, which are 25% nickel and 75% copper. They don't get that yellowish look which the wartime nickel got after a short period of usage. The wartime nickel consisted of 35% silver, 56% copper and 9% manganese.

Those ops who haven't yet come up against the new nickels are warned to obtain some and change their gravity feed chutes accordingly before their areas are flooded with them.

Press Takes Note of 10¢ Juke Box Play

PASSAIC, N. J.—The Herald-News of this city took immediate note of the fact that the juke box play here was being changed from 5c to 10c per record, 2 for 15c, 3 for 20c and 4 for 25c, with a headline in its August 10 issue reading, "Art Frowns on Lowly Jitney As Juke Box Prices Take Flight."

According to the press, "First it was the nickel beer that went. Now the nickel is becoming obsolete in the garish contraptions they call juke boxes and telephone music machines.

"The price is going up for filling spas with the dulcet music of 'Cement Mixer' and 'Arabian Menu.' It's going to cost more to ask the tel-music operator, that disembodied voice, what's she doin' tonight, hm, baby?

"Prices are up, say the juke box dealers, because of rising costs. Girls who used to get $16 a week are now being paid $38 to $40. Records once cost 35c each; now they run from 79c to $1."

(The action is in keeping with the MGA news release (Music Guild of America, organization of the juke box ops in this state) wherein the music coinmen in the northern part of the state are changing their telephone music to 10c per play and all commission arrangements where the 5c play is being maintained to 75%-25% commission basis. The telephone music ops also revealed that they, too, in addition to changing their machines to 10c per record are also cutting their commissions to the locations to 25%. In this community, music ops have been paying about 30% to 40% commission for some time and have also been obtaining "front money" from all locations. All changes are to be in effect by Labor Day.)

Claim Mayor Pressures For Juke Box Spots

COVINGTON, KY.—Two ops have charged that Mayor Pro Tem Robert F. Moore brought "political pressure" to bear to drive their juke boxes out of this area.

The first complaint is reported to have come from John Weisenberger, owner of the Kentucky Service Co., 210 E. 20th St., this city, who charged that Moore was putting "political pressure" on operators of cafes and other establishments where he has juke boxes to replace them with the machines owned by Moore and Frank Feldman, partners in the Kenton Music Co., 828 Madison Ave., this city.

Since then another juke box op, Charles Hoffman, veteran bomber pilot, said he complained to City Manager Theo. Hageman that he had hear police were aiding in the movement.

Hoffman reported ,he had received no further reports since his complaint of interference with his locations. Hoffman is a partner of Wm. Petry of this city and operates thruout northern Kentucky.

Tax Pins $200; 4 Machines Minimum

NACHES, WASH.—This city's councilmen voted this past week to draw up a new pinball ordinance requiring that the operator have a minimum of four machines and that the first machine be taxed $200 and $30 for each additional machine, to be paid annually.

Mayor C. R. Moore stated that this was an effort on the part of this city to obtain greater revenue to conduct the various city departments.

Coinmen who have machines here did not expect such an excessive tax. They are now figuring on withdrawing their machines, especially from locations where this sort of tax will eliminate all possibility of profit.

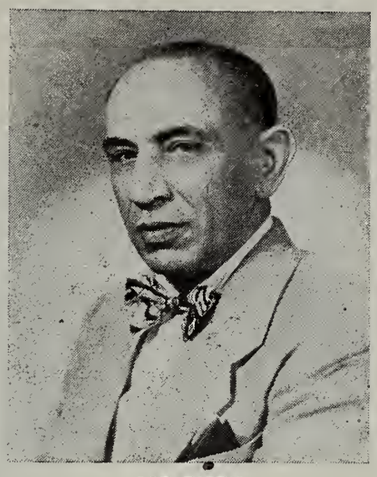
Obtain N.Y.C. "Amusement Game" License for Red Ball

BUDDY EISEN



JOE EISEN

NEW YORK—Joe Eisen and his son, Buddy, whose firm, Joe Eisen & Sons, are distribs here for the "Red Ball" amusement game of Hirsh Coin Machine Co., Washington, D. C., this past week announced that "Red Ball" was licensed by the City of New York to operate here.

The first license for the "Red Ball" was issued on August 26 and the fee set at $5 per year.

Joe Eisen stated, " 'Red Ball' is the only coin operated amusement game now licensed in New York City."

He also said, "Operators in this city can now place the game on any location with the assurance that it is legal and so accepted by this City in every way."

Eisen also remarked, "The 'Red Ball' has been licensed by the City of New York as an 'amusement game'."

Hirsh de LaViez of Hirsh Coin Machine Co. came to town to visit with Joe and Buddy Eisen on receipt of the news. He was happily pleased to note how coinmen here flocked to the new offices of the firm, once the license was granted, to purchase the machines. The new offices of the firm are located on 12th Avenue near 52nd St.

LaViez is of the belief that "Red Ball," "will prove one of the greatest amusement games the New York operators have ever yet placed on locations in this big city."

"They will also find," he continued, "that the play will remain steady and that the players will continue to play more and more as time goes on."

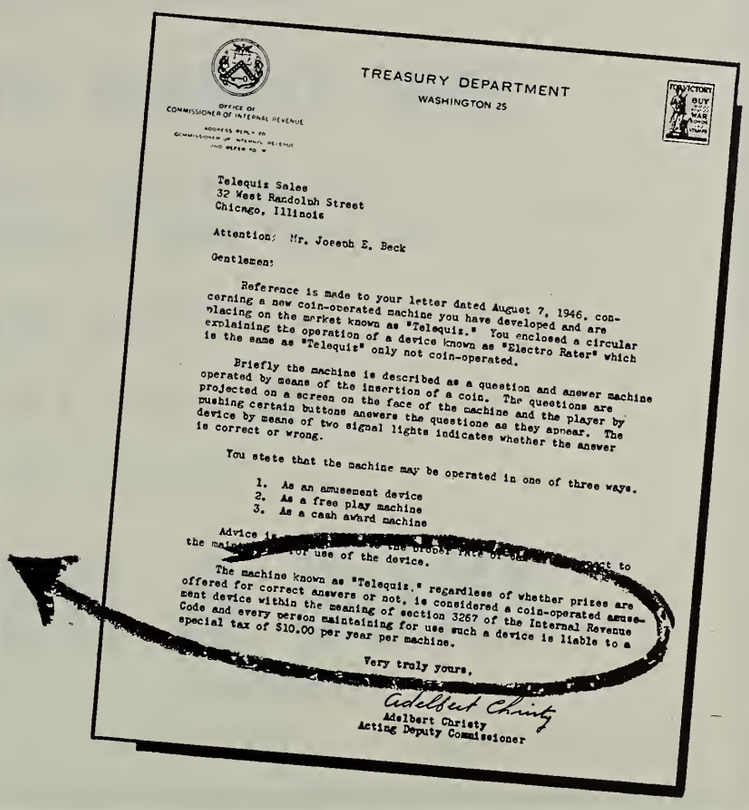
★ INTERNAL REVENUE RULES "TELEQUIZ" PAYOUT MODEL SUBJECT TO ONLY $10.00 FEDERAL TAX

"The Machine known as "Telequiz," regardless of whether prizes are offered for correct answers or not, is considered a coin-operated amusement device within the meaning of section 3267 of the Internal Revenue Code and every person maintaining for use such a device is liable to a special tax of $10.00 per year per machine."



TREASURY DEPARTMENT
WASHINGTON 25

OFFICE OF COMMISSIONER OF INTERNAL REVENUE

Telequiz Sales
32 West Randolph Street
Chicago, Illinois

Attention: Mr. Joseph E. Beck

Gentlemen:

Reference is made to your letter dated August 7, 1946, concerning a new coin-operated machine you have developed and are placing on the market known as "Telequiz." You enclosed a circular explaining the operation of a device known as "Electro Rater" which is the same as "Telequiz" only not coin-operated.

Briefly the machine is described as a question and answer machine operated by means of the insertion of a coin. The questions are projected on a screen on the face of the machine and the player by pushing certain buttons answers the questions as they appear. The device by means of two signal lights indicates whether the answer is correct or wrong.

You state that the machine may be operated in one of three ways.

1. As an amusement device
2. As a free play machine
3. As a cash award machine

Advice is ... the Bureau ... to the ... for use of the device.

The machine known as "Telequiz," regardless of whether prizes are offered for correct answers or not, is considered a coin-operated amusement device within the meaning of section 3267 of the Internal Revenue Code and every person maintaining for use such a device is liable to a special tax of $10.00 per year per machine.

Very truly yours,

Adelbert Christy
Acting Deputy Commissioner

City Doesn't React to Atty. General's Request

ST. HELENS, ORE. — Repercussions are expected here regarding the statement by Attorney General George Neuner to enforce all gambling laws and outlaw such machines as pinball, bells, etc.

This city, which used to license these machines, now taxes them, claiming that the difference is, if they are illegal and are licensed then it means that the city is condoning the machines.

There are numerous machines here and thruout the county and most of them pay a city as well as a Federal license fee. This city, for example, reaps from $7,000 to $9,000 annually from the license fees, and other county towns also tax the machines.

Attorney General wants law enforcement officers to seize and destroy all types of machines

Salt Lake Pin Licenses Halt While Commish Decides

SALT LAKE CITY, UTAH— Chief of Police L. C. Crowther ordered all pinball machines to be padlocked pending formal action of the city commissioners.

The Chief claimed that discontinuance of all marble games and punch boards will help immeasurably in eliminating gambling in this city, and he expressed the hope that the city commissioners would declare all such devices illegal.

In the meantime there are a great many license renewals for pinballs pending at this time. Ops have placed "out of order" signs on games awaiting the decision of the city commission.

Whether or not the Chief will find the commissioners favorable to his request is as yet unknown. What is believed here that this action emanates from demand that the city be cleaned up prior to the 1947 centennial.

Some of the commissioners, who have been questioned, stated that they would back up Chief Crowther's request. Others have remained quiet.

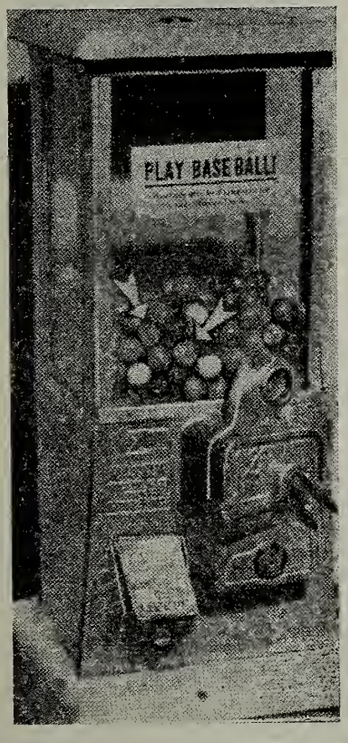
Penny Venders Hit Hard by Judge



MINNEAPOLIS, MINN.—The above picture appeared this past week in the Minneapolis Tribune and acted, as many ops feared that it would, to incite and further aggravate opinion against all types of coin operated machines here.

Coinmen of long standing know, as one reported, that this type of penny ball gum vending with either spotted, striped or marble balls wherein the kids can obtain an additional amount of merchandise from the storekeeper, is going to do anything but good for the vending machine business generally.

Angus Grant of the Grant-Van Doren Sales Co., also listed as the Triangle Sales Co., this city, received a stiff penalty of 10 days in the workhouse, after a warrant was issued for his arrest, from Judge Paul L. Jaroscak. Mrs. F. W. Holden in whose store the machine was seized, was fined $100 by the judge.

Judge Jaroscak is reported to have stated, "These machines definitely are gambling devices."

The trade here hopes that there will be no further operations of this type of merchandise machines allowed for, they state, the reaction has proven unfavorable in every case and affects all machines in this city.

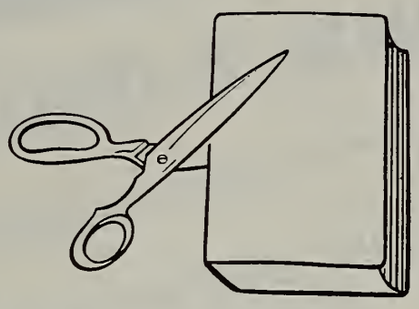
Press Gives Returned Vet-Op Good Notice On Opening Record Store

MIDLAND, MICH.—The "News" of this city gave operator Harold A. Matthews a nice notice this past week on the fact that he was opening a new and used record store.

The "News" reported that Matthews has been engaged in the juke box operating business since 1936, having a route in Bay City, Mich.

Upon his return from the service, it stated, he retained his Bay City business and decided to extend his activities to this city.



Cutting a long story short . . .

The three newest games created by Amusement Enterprises, Inc., will soon be unwrapped for the inspection of the entire nation.

Heads New Music Manufacturing Firm

MANUEL EHRENFELD

PASSAIC, N. J.—Manuel Ehrenfeld, of this city, well known to the music machine trade for the past 25 years, was announced this past week as president of Telomatic, Inc., manufacturers of coin operated musical instruments.

Accorling to the report, "This firm will soon present to the automatic music industry one of the most outstanding and surprising revelations ever manufactured for the operators."

The report also went on to state, "So far, every operator who has seen the new 'Telomatic' automatic music system, has purchased it — without a second's hesitation."

According to Ehrenfeld, "We intend to present 'Telomatic' to the trade very soon. We believe that this is the answer to what the operator of automatic music needs today to assure himself profits for years to come, as well as a stable, clean and growing business.

"Our system," he continued, "has been reported to be ten years ahead of anything yet presented in the automatic music field. We know, from actual operation experience, that it has proved itself the answer to the operator's problems."

Other executives of the firm are very much enthused at the reception already given their system prior to its official announcement to the trade.

The engineer of the firm stated, "The very simplicity and the operational method gives the music operator the opportunity to enter into fields he has never before delved into and which assure him of a continuous, steady profit-income for years to come without the need for constant change and additional expense. In fact, his overhead is cut down to such a low point that he can spend his time building his business from now on without worrying about the collections he should get and depend upon 'peak' or 'seasonal' business."

Hankin and Lovelady Give Advice on "Quiz"

ATLANTA, GA.—Morris Hankin and Jack Lovelady of H & L Distributors, Inc., this city, sat DeWitt (Doc) Eaton, Vice-President and General Salesmanager of AMI, Inc., down in their private offices and gave him some "southern advice" on what to answer in the forthcoming "east-west juke box quiz" which goes over the air waves from radio stations WGN in Chicago and WOR in New York on September 1.

Eaton reported, "The information which I gathered from Morris and Jack regarding the southern juke box industry will prove of good value on the 'Quiz of Two Cities' program and I believe more than ever now that Jack Mitnick's team of New York 'quiz kids' better be up on their punches for we are going to ride right into them with some answers they'll never believe we have."

Music Ops Go After Muzak Locations

NEW YORK—The Muzak profit report for the past year of earnings of approximately $6,500,000 has excited many telephone music and single channel music ops to going out after the same type of locations in their territories.

Reports already received are to the effect that many have promises that when the location's two year contract ends with Muzak that the operator's equipment will be installed.

The $90 per month charge, which is the norm in most cases of Muzak music, is extremely attractive to the average music operator who knows that he can not only compete with Muzak today — but can actually outshine them with the equipment now on the market.

One Chicago operator is reported to now be channeling music to over 644 doctors and dentists offices on a flat monthly rate. He is reported to be increasing his business right along. And, these reports state, he specializes in this professional type of music only.

With banks, restaurants, haberdashers, department stores and almost every type of professional waiting room and office asking for single channel music — the coin machine operator now has the opportunity of adding to his income beyond that of his present juke box take.

With telephone music and single channel studios going up faster than ever thruout the country — and with the further fact that the average operator can outshine Muzak with the music he vends — the trade is going all-out for the locations which they have neglected for so long a period.

Many juke box men earned some nice profits during the war period making factory installations of hidden units with speakers, amplifiers and controls for the personnel manager.

But, now, the juke box operator wants to operate these same spots and is hiring salesmen to cover them and, where Muzak is already installed, cutting the Muzak price, offering more and better music, and taking the promise home that he will follow right in when the Muzak contract is finished.

Johnson Fare Box to Build Coin Operated Gas Pump

CHICAGO—News has just been received here that the Johnson Fare Box Co. of this city have been chosen to build the coin operated gasoline pump of Gasoteria, Inc., Buffalo, N. Y.

Walter W. Schneckenberger, vice-president and secretary of the Marine Midland Corp., Buffalo, N. Y., heads the firm of Gasoteria, Inc. His son, Philip, designed the self-service pump.

Production is expected to be under way very soon. Already the press of the nation have picked up this item and are featuring it.

Wurlitzer Feature of Dept. Store Window

ATLANTA, GA. — The Davison-Paxton Department Store is one of this city's favorites for all shoppers. And, according to officials of this store, "So is the Wurlitzer Model 1015."

"Get the two together," reports Bob Dupuy, manager of the F.A.B. Distributing Co. offices in this city, Wurlitzer distributors, "and you've really got something."

Bob reports that when Davison-Paxton wanted to get a real "school flavor" to their college shop window display, devoted to their "College Shop Clothes" — they called for a brand new Wurlitzer Model 1015 to be installed right in the very eye-center of the display.

According to reports, the display attracted a great deal of attention from the younger crowd here who are preparing to enter into surrounding colleges and many a sale was probably made because some youngster stopped to look over the new Wurlitzer and then saw the fine "College Shop" clothes featured by this noted Atlanta department store.

Orders Check of Hartford Pin Games

HARTFORD, CONN. — Police Chief Charles A. Anderson reported this past week that local officers have started their annual check on pinballs located in this city to determine if all the machines are properly licensed. Owners were advised that if they haven't already done so to get their new licenses immediately.

Central Announces New Counter Pin Game

CHICAGO — Central Mfg. Co., this city, report that their first new, post-war upright counter pin game will be ready for shipment on Oct. 1.

The game is called "Hi-Fly" and, according to the firm's execs, location tests have proved the game to be one of the most outstanding ever built.

The firm also report that, "The stop-watch speed and unusual player appeal of this new baseball game, to be introduced right before the world series, promises to add new life to all locations."

Philip H. Vision of the firm also reported, " 'Hi-Fly' was designed and engineered by Charles Solinski, chief of Central's engineering staff."

Martin Simon, vice-president of the firm stated, "Our 'Hi-Fly' game has been under experimentation for the past 18 months. We believe that this constant testing has produced a machine which will cut service calls to a minimum."

U.S. Puts "Telequiz" in $10 Tax Category

CHICAGO — Joe Beck of Telequiz Sales, this city, is mailing photostat copies of the letter which the firm received from Adelbert Christy, Acting Deputy Commissioner of the Internal Revenue division of the U.S, Treasury Dept.

The Deputy Commissioner's letter is interesting to the trade from the following standpoint: "You state the machine may be operated in one of three ways: 1) As an amusement device; 2) As a free play machine; 3) As a cash award machine. Advice is requested as to the proper rate of tax with respect to the maintenance of the device.

"The machine known as 'Telequiz,' regardless of whether prizes are offered for correct answers or not, is considered a coin operated amusement device within the meaning of Section 3267 of the Internal Revenue Code and every person maintaining for use such a device is liable to a special tax of $10 per year per machine."

It will be interesting to coinmen to note that the machine "regardless of whether prizes are offered for correct answers or not" is still placed in the $10 category as an "amusement device." Also note the fact that Telequiz Sales asked what the tax would be if the game was operated as "a cash award machine."

Wurlitzer Musical Sign Rides the Skies

ANNANDALE, MINN.—Mr. Coefield of the Coe Music Company is both air-minded and promotion-minded, too.

He has Wurlitzer's *"Sign of the Musical Note"* on every Wurlitzer location. He also has an airplane and covers his Minnesota-North Dakota territory with considerable speed and dispatch.

Big as life on the ship is — you guessed it — the *Sign of the Musical Note.* Mr. Coefield is not satisfied with Wurlitzer Music alone in the air. He has put the insignia that identifies it in Wurlitzer's national magazine and billboard advertising right up into the heavens. And it creates quite a bit of comment wherever Mr. Coefield goes.

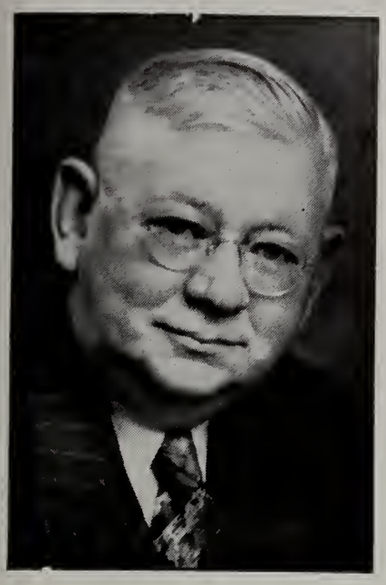
Patents 2-Arm Record Player That Holds and Plays Discs Standing Up on Edge



J. A. DARWIN

WASHINGTON, D.C.—An automatic phono that holds records up edgewise while it plays them, instead of laying them flat, is the invention on which Patent No. 2406355 has just been granted to Joseph A. Darwin, East Orange, N. J. and Robert Robertson of Kearny, N. J.

Instead of one tone arm this phono has two with oppositely placed needles. First the record is turned in one direction, while one side is being played, and then the record is reversed, the right hand needle is set in the playing groove until that side is played. Both tone arms are then disengaged and at the same time the pivot bearing arms that have held and rotated the record release it and move on to pick up the next.

The records stand on edge with separating sheets between them. The automatic selecting mechanism flips them open at the desired spot and stands up the record to be played so that the mechanism can engage it.

The unit can play one record right after the other, if no particular selection is desired, then start back and play them all again in reverse order. It can also be stopped at any point desired.

J. A. Darwin is at present eastern regional director for Packard Mfg. Corp. of Indianapolis, Ind. He is well known to the automatic music field having been with the Rudolph Wurlitzer Company prior to his present connection.

Urges Early Reservation

JAS. A. GILMORE

CHICAGO—James A. Gilmore, secretary-manager of C.M.I., Inc., urges all coinmen to write: "Hotel Sherman, Convention Dept." for room reservations immediately.

Gilmore says, "Do not write our association to take care of it for you. Hotel Sherman insists on handling all room reservations for the annual convention and coin machine show to be held February 3 to 6 inclusive,

He also reports that every postwar convention has been attracting over 50% more visitors and believes that the '47 coin show will have at least 12,000 coinmen and others from all over the country.

Have Been "Mr. and Mrs." for 29 Years

PAUL AND LUCILLE LAYMON

LOS ANGELES, CALIF.—"Mr. and Mrs." has been the designation for Paul and Lucille Laymon (Paul Laymon Company, this city) for 29 years.

Both are Hoosiers from Indianaway and both are completely and firmly settled here in one of the most beautiful homes in Santa Monica

This past week Paul and Lucille went all out — giving one of the largest parties (in their long party-giving history) for all of their friends to celebrate their 29th wedding anniversary.

Wanna Make a Bid?

Columbus Wants 2,000 Parking Meters

COLUMBUS, O.—This city is asking for bids on 2,000 parking meters that it wishes to install here.

Already six firms have made bids ranging from $72,000 to $118,140. The six firms are: Magee-Hale Parking Meter Co., Oklahoma City, Okla.; M. H. Rhodes, Inc., Hartford, Conn.; Kar-Park Corp., Cincinnati, O.; Michaels Art Bronze Co., Covington, Ky.; Duncan Meter Corp., Chicago, Ill. and Dual Meter Parking Co., Canton, O.

Under legislation passed here the city will enter into an 18 month rental agreement for the meters with the option to buy after that time. It is also required that the 1700 old meters be traded in.

Becomes Proud Daddy

Will Direct Coin-Washer Sales Kill Off Launderettes?

NEW YORK — *The Cash Box* was visited this past week by a former manufacturer of automatic drink dispensers who now plans on entering into the coin operated washing machine business.

He reports that due to an article he read in *The Cash Box* some time ago he became interested in making an investigation of the "Launderettes" and decided that these spots pioneered the way for the sales of coin operated washing machines direct to homes.

It is his belief that washing machines will soon become sufficiently available to be purchased at distributors' price and that with the installation of the regular timing coin meter — they can be placed in homes — without any down payment — backed by many interested finance firms.

His idea is to send salesmen into naborhoods where the "Launderettes" are proving successful to sell within a 20 to 30 block radius

THRU THE COIN CHUTE

CHICAGO CHATTER

This was a pretty busy week for your Chicago offices of *The Cash Box*. It was moving week. We're in larger offices now and better able to accommodate our many friends who like to pop in when in town and say a merry "hello." Found moving anything but a pleasant task these days — but — it's all over and so we're happy. And now away to a flying visit to our N. Y. offices — IF — we can get a plane or train out of the Windy City. Transportation is so snarled up here this weekend that it now appears we should have started to walk to New York the beginning of the week — to get there at all.

Mr. and Mrs. Harry Williams (Williams Mfg. Co.) are still talking about the grand, grand time they had in New York. Harry claims, "That's what I call real hospitality" . . . Saw Henry Fox of New Orleans in town again and Henry, this time, was reported to be looking to "sell" plenty of good equipment. Of course, we do believe that Henery would also do "pahlenty" of buying — "if the price is right" — as he says . . . Hear that Doc Eaton of AMI is on his way back from the south to be on that "Two Cities Quiz Program" over radio station WGN this Sept. 1 . . . Also hear from the grapevine that M. S. (Bill) Wolf is on his way back into Chi to meet with some of the mfrs here to see just what's what on getting new equipment.

Charley Ewing of Automatic Amusement Co., Evansville, Ind. popped into town this past week to look conditions over and reported that things were just where expected they would be anyway . . . Tony Zore of Sheboygan, Wis. also came to town looking for some equipment . . . Dick Groetchen planes his way down to Florida to spend a short vacation with his wife and two children. Dick is sure one proud Daddy . . . That new conversion by Munves Mfg. "Soft Ball Queen" sure does look like a honey — according to what I'm told . . . The way that visitors keep pouring in to see the "Telequiz" machine is really somethin' . . . Jack Nelson is showing callers a new type of counter nut vender that is really unique.

Dave and Nate Gottlieb and their families spent the past week at Eagle River, Wis. Dave wanted to do some fishing — having missed out when he went there in July due to the heavy cloudbursts which affected the usually good fishing at that time — and Nate wanted to spend some time perfecting himself in his favorite sport — golfing. Looks like Nate will soon be ready to challenge some of our other coinmen golfers — and the boys are plenty good at golfing. Sol Gottlieb pinch-hit for the brothers over at the big Gottlieb factory while they were away. Sol reports that he sure was busy while Dave and Nate were gone with distribs from everywhere calling in long distance and yowling their heads off for more and still more of those new Gottlieb games.

Joe Hanna of Utica, N. Y. popped into town this past week and showed some of the boys some of his "amateur" magic tricks. By the way, Joe should be featured on stage at one of the conventions — this boy's good . . . Harold Lieberman of Acme Novelty Co., Minneapolis, Minn. also came to town to see what would happen right before Labor Day and went away with lots of smile — so guess that Harold was made plenty happy . . . Doc Gerenson of the Minneapolis Automatic Machines Co., also came to town this past week — looked around — saw what there was to be seen — and then went home saying very little . . . Charley Rosen of Ohio Specialty Co., Louisville, Ky. also in our city and it seems that Charley has gotten all over his sea-wobbly legs) and trying to dig up more and more new machines for his place so that he can satisfy some of the demand he has.

Henry Kufta of Muskegon, Mich. in town and doing some buying . . . Ace Mitchell of the Modern Drink Dispensing Co., Muskegon, Mich, also in town and seeing what we have to offer a badger . . , Arnold Lee of Lee Sales Co., Ft. Wayne, Ind. came in this past week and was doing some rapid calling around for, by the time we thought we had at last caught up with him, he was on his way out — back home again . . . Dave Booth of Kaw Specialty Co., Kansas City, came in this past week and was reported eager to do some buying. Wonder if he got what he wanted? . . . Bob Howenstein of Fort Wayne also in town this past week and also reported to be looking for some nice buys . . . Bob Good of the Central Amusement Co., Memphis, Tenn. was in town and was reported to have been a busy little bee while he was here.

Bill Wrigney of W & L Phono Service, Peoria, Ill. also called around here and there and then drove right home again — down Peoriaway . . . We were very happy to learn that Sam Wolberg's mother recovered very nicely from a recent eye operation . . . They tell me over at Genco that they simply have to go on producing Total Rolls for the orders keep right on pouring in every day — more and more . . . Central Mfg. introduces a brand new counter game called "Hi-Fly" on October 1 — already to ship to you on that day.

J. F. Bard tells us that he will be exclusive distributor for a new record label, Rondo Records, which will introduce several really "hot" numbers for the juke box ops. Announcement will be made in the next issue of *The Cash Box* . . . Harry Salat of Bell Products Co., is back from an entire month's vacation to the West Coast. But Harry tells us that he mixed up plenty of business with the vacation pleasures and that the firm feel the trip was more than worthwhile. How'd you like the rootin', tootin' shootin' ole West, Harry? Write us a letter about it, willya?

THRU THE COIN CHUTE

EASTERN FLASHES

Joe and Buddy Eisen, Joe Eisen & Sons, get a New York City license for "Red Ball" an amusement game they distribute here for Hirsh Coin Machine Co. Operators immediately rush down to Eisen's new offices on 12th Avenue to place their orders. Hirsh de La Viez of Hirsh Coin Machine Co., Washington, D. C. spent the day with Joe and Buddy, seeing that all arrangements for immediate delivery were set. The Eisen's offices were also the meeting place of the music ops this week who attended a service school lecture by Packard Manufacturing Corp. engineers on August 28 and 29. Harold Hunt and Louis G. Stewart of the Packard factory demonstrated the Packard hideaway to the ops. Joe Darwin, regional factory representative, visited with the Eisens, left for Philadelphia to see Iz Rothstein, and then back to 12th Ave.

* * *

Lou Herman, County Amusements, Mount Vernon, N. Y., buys out his brother Charley, and now is sole owner. Charley is one of the real old timers. He claims he'll sit around and take it easy from now on . . . Barney (Shugy) Sugerman, Runyon Sales Co., getting deliveries of the AMI Model "A", and Jack Mitnick is having the usual headache of trying to satisfy the ops . . . Herman Perin, of Runyon, back in town for only two weeks, planning another trip . . . Johnny Holenka, manager of the Runyon record department, leases a store on West 57th St. to be used only for shipping. "The record biz is terrific" claims Gloria Friedman, Johnny's assistant.

* * *

Teddy Blatt and Jack Rubin, Intimate Music Corp. (Solotone distribs) fly up to Albany, N. Y. to close a deal . . . Harry Steinberg, H. & S. Sales Co., Newark, N. J., working at top speed, taking care of the ops demand for Exhibit's new 5-ball "Fast Ball" . . . Sam Taran, Taran Distributing Co., Miami, Fla., in town . . . Nat Cohn and Earl Winters, Modern Music Sales Co., entertain Tom Saffedy, president of Vogue Records. Discussion centers upon more and more production . . . Dave Simon takes a stroll down coinrow and meets all the boys. At one time Dave was surrounded by Dave Stern, Jack Fitzgibbons, Mac Pearlman and Hymie Rosenberg.

* * *

Dave Stern, Seacoast Distributors (Rock-Ola distributors) spending considerable time with Jules Mayers, the new manager of the New York City offices. It appears that Dave and Jules are always in conference with music operator customers . . . Ken Brown flies in from the West Coast, using his own plane as usual . . . C.I.T. Corporation (finance organization) surveying the field for its entry in a very short while . . . Joe Fishman, Atlantic New Jersey Co., wants all those recent grandfather friends of his to know that his grandson is something "special." He's a carrot top . . . Harry Berger, West Side Distributing Co., will be moving his biz to a new location very shortly.

* * *

Jack Fitzgibbons, back in his old headquarters on West 47th St., and almost ready to break with his announcement of something new in music, is stepping around like a two-year old getting everything organized . . . Al Denver, president of the Automatic Music Operators Assn., out of the hospital and feeling fine . . . There is a new secretary over at Tri State Sales & Distributing Co. (Bally distribs) . . . Understand that a Philadelphia telephone music route was sold for $175,000. this past week . . . Charlie Sachs, Union Automatic Music Co., Brooklyn, N. Y., back on the job after a week's illness . . . Herman Silver, Empire Music Co., vacationing in the Catskill Mountains . . . Sidney Levine, attorney for the Automatic Music Operators Assn., returns from a 2,000 mile auto trip thru New England and New York State.

* * *

The annual banquet of the Automatic Music Operators Association, being held on Saturday night, October 5, at the Grand Ball Room of the Waldorf Astoria, is a wonderful break for the ops. Previous banquets held in the Starlight Room accommondated only 450 to 500 persons. The grand ball room holds 1200, and all the ops and their friends can now attend. Barney Schlang, manager, and Ruth Nussbaum, working with Al Denver, president, claim they will have every recording artist who will be in the city on October 5, appear to do a turn. Many out of town coinmen are expected to attend . . . Arcade Owners' Association will have their first fall meet at the Park Central Hotel on September 26 according to Al Blendow, president.

* * *

Operators welcomed the news that the brewers will increase the production of beer 15%. Brewers here claim they will use most of this increase for draft beer . . . Music operators will have their ears glued to their radios this Sunday (Sept. 1) listening to the "Quiz of Two Cities" program featuring a "Battle" between a Chicago team captained by "Doc" Eaton, vice-president and general sales manager of AMI, and Jack Mitnick, captaining a New York team. Program is sponsored by Listerine and is heard on station WOR . . . Irv Morris, Active Amusement Machines Co., Newark, N. J., is one of the few coinmen we know who is an expert "player." Irv is particularly good at all types of bowling games . . . W. E. Alley, AMI distributor in Richmond, Va. and A. Blake, of the same town visit here.

THRU THE COIN CHUTE

CALIFORNIA CLIPPINGS

Bill Wolf plans on a quick trip to Chicago soon to attend an A.M.I. confab. It is slated to be an important meeting, according to reports. Al Silberman is back to work at M. S. Wolf after a short siege of the flu. Wolf has set up a working model of the new A.M.I. Automatic Hostess in his showrooms and it is drawing a lot of favorable comment from the many ops dropping into Bill's place to look it over. Bill hopes to be able to make deliveries on the new unit soon . . . Jack Gutshall has been making daily deliveries of the new Aireon phonos received recently and, according to reports from ops, the machines are doing well on locations. Jack expects to make deliveries on the new Jack Hammond Album soon.

Bud Parr reports that demand for the new Solotone boxes is growing daily which has resulted in his expanding their Burbank factory to meet this demand . . . Fred Gaunt of General Music has on display the new 1946 Buckley "Track Odds" and is taking many orders for delivery in a very short time. The new machine looks like a winner and should meet with approval . . . Gabe Orland of California Music is still hobbling around on crutches after a leg operation . . . Bill Haberman, well known op, is preparing to become a pappa and is accumulating cigars for the big event.

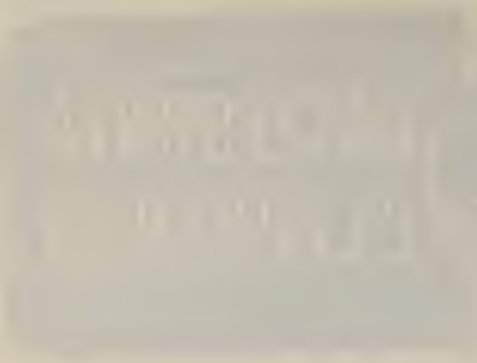
William Leuenhagen has been appointed distributor for the new Rhapsody record label, and reports that in the short time he has been handling this platter the demand has been tremendous. Bill is distributing the line in addition to the many automatic games he has on display in his showrooms . . . Among the many coin ops seen shopping along coin row were: Fred White, Visalia; James and Lillian Scherer, Compton; Roy Smith, Lancaster; S. J. Burris, Montibello; Ray Reynolds, Big Bear Lake; James Mills, Downey; Frank P. Ghiglia, Jr., Encino; Art Weiss, Arcadia; Lee Walker, Gardena; Niles Smith, Oildale; Sammy Escobedg, Riverside; and from Los Angeles, R. C. Jones, Sr., Hugh McElhenney, Sol Schwartz, Mrs. Howell Baker, R. F. Jones, R. E. Sanderson, and Emmet Chew.

Len Micon has just received another small shipment of the new H. C. Evans "Bangtails" and is shooting them out to ops as fast as they arrive. He expects another shipment within the next week, and, according to word passed out, expects to receive the first sample of the new Packard Pla-Mor hideaway very soon. Arnold Micon has taken a short vacation and is off to the north woods to fish, swim and relax . . . Bill Happel has just returned from a trip to San Diego where he closed several deals for delivery of the new "Three-Way Bonus Super Bell" Keeney equipment. Badger Sales are distributing the "Golden State Vendor," a peanut and gum vending machine. Meanwhile, the construction boys are really working at the new Badger building and, if they can keep up the pace, things should be in shape in another thirty to forty-five days.

Ray Powers of E. T. Mape informs us that the firm's Stockton offices are now open and ready for business, and he is leaving for a two-week vacation in the northern part of the state to fish and tour the country and visit with his folks in Sacramento . . . Irving Honig, a recent arrival from New York has acquired a music route and is very happy in his new native city . . . Golden Williams and Frank Butterfield of M. S. Wolf Distributing off on a two-week vacation . . . The Shoup Bros. of Yuma, Arizona in town to cool off from the Arizona heat. The boys will remain till early September . . . Ed. Johnson of "Spares and Strikes" and Nels Nelson, local distributor, were seen in a deep huddle discussing ways and means for the distribution of the new automatic bowling game which is reported doing extremely well on location, Ed tells us that he is all set to go into production and should be able to meet all demands for the new game within the next thirty days.

Paul Laymon has just received several of the new Bally "Draw Bell" consoles and is displaying them in his showrooms. The machine has many new improvements and appealing innovations from the original one displayed some months ago. The ops appear well impressed with the new unit and are clamoring for delivery. Paul believes that he will be in a position to meet demand very soon . . . Elky Ray is displaying the new Gottlieb 1-ball "Daily Races" and the new Gottlieb "Superliner" and is taking many orders daily. Elky is about the most unhappy man in town because of the delay in the completion of his new building. But Elky is sporting a new Studebaker and is the envy of many of the car hungry boys around town.

Charlie Robinson has been receiving a number of new machines, many of which are on display in his very large and attractive showrooms, and is expecting delivery of a big quantity of the new non-coin operated tax free Daval counter game. Charlie has been taking the afternoons off recently, as he can leave things in the very capable hands of his manager, Al Bettleman . . . Lou Chudd, of Holiday Distributors, plans on a trip East to be away about two months. The firm manufactures and distributes Gold Seal and Discos Imperiales records, which are claimed fast becoming top sellers in the platter field. Max and Lou on releasing a number of new and very novel folk song discs which should go places once they hit the juke boxes and record stores . . .Howard Krause of Enterprise Records is on a selling trip to the East plugging the firm's platters. The label has a fine catalogue of records and should be in good demand once they get out in the field . . . Sol Bihari of Modern Records plans on an extended trip thru the East and South appointing new distribs and stirring up their established ones to increase sales. Currently, the firm is pushing a new album of recordings by the well known Hadda Brooks . . . Len Kelly of K & M Distributors plans a trip to Omaha to open an office in that city for the distribution of the firm's records. Fred Myers, now in Dallas, is due back home in a week to look after things until Len returns . . . Bob Cook of Bel-Tone records has been receiving many orders from his distribs for their new album which, according to Cook, has been keeping everyone in the firm working nights to keep the stuff rolling.



THRU THE COIN CHUTE

ST. LOUIS

It was a big week in St. Louis — as 33,320 people jammed into Sportsman's Park to see the Dodger-Cardinal "croocial" series. Ops report record plays in every location near the ball park, and vending machines everywhere were serviced four and five times a day.

Final news has come through on the tragedy at Centralia, Illinois, when one of Southern Illinois' best-known operators was electrocuted in his home. Original news was that a mechanic at Hudson-Houser Music Company, Centralia, Illinois, had been killed by a freak bolt of lightning while repairing a broken pump in his home. A later check (newspapers reported the death erroneously) revealed that C. C. Hudson, who pioneered phonograph routes over the Egypt district of Southern Illinois was the victim. Mr. Hudson was wading in three feet of water in his basement, caused by the tremendous rains of mid-August, when the lightning struck him, and died instantly. The Missouri Amusement Association and many friends among St. Louis distributors have sent flowers and condolences to Mr. Hudson's family. No news has been released concerning Mr. Hudson's extensive routes.

Charles W. Larcom, vending machine operator who flew B-24's in the Pacific theatre, has returned to his home in South St. Louis and is re-entering the business. "Wish I had some of that officer's club equipment" Chuck moaned, after making the rounds of distributors . . . No phonographs were delivered by St. Louis' ten-odd distributors during the past week, as shipments fell off sharply. However, the long waiting period is being swiftly reduced.

Both ops and mechs are signing up enthusiastically for Ben Axelrod's "Packard short course" soon scheduled over at Olive Novelty Company. The shops and showroom are going to be taxed to take care of the boys. Incidentally, it is obvious around the 49th State that ops are going to be carrying tools around their locations to handle a bit of repair work on their own.

Jim Akers from Harrison, Arkansas, led a parade of ops who appeared "on buying trips" in St. Louis during the week past — and immediately vanished into the ball park. It was a Little World Series as far as St. Louis was concerned . . . Billy Laney of Columbia, Mississippi, who has a lot of friends in Missouri, was up to buy two pin games — and need we say it, to likewise root for the Cardinals.

Pla-Mor Music Company down in Sullivan, Mo., is burgeoning out with new equipment, says owner Curly Summey, visiting distributors this week. He's latched on to new pin games and phonos . . . Ed Randolph of Ideal Novelty is sporting the first new Studebaker in coin machine circles here. You can't tell which way its going" Ed says. Missouri Tavern Supply has acquired a half-ton Chevrolet pickup truck. And W. I. Willers, who operates the river cruiser Golden Eagle, has come up with a new Chrysler New Yorker.

New faces seen include Ed Eddington, op from Springfield, Mo., and Johnny Tocco, local op who is buying new phonographs. Jimmy Carmody chimed in with new vending machines, as did Walter Bowman, who is hustling over his routes to keep venerable machines in operation . . . Much interest is claimed for the September meeting of the Missouri Amusement Association, even though tax, license and location split problems are just about the same as during the May meeting. Much fur may fly between tavern owners and phono ops come the first of September, the general opinion goes.

BOSTON

New machines coming in faster than ever with many new games striking favor. Billy Wells of Apex Coin Machine Company reports that a steady stream of out-of-town operators have been in to replace old equipment with new. O. J. Porter and Mr. Libby appeared from Portland, Maine, to pick up new machines as did T. D. Sullivan from Bangor. Another visitor was Ralph Rouxe from Lowell.

The new 2500 square feet addition to the Atlas Distributing Company is finished and already filled with equipment, according to Barney Blatt. The Atlas mentor added that the space was really needed to take care of expanding business. Visitors to Atlas the past week included Harry Kelly, district sales manager for Seeburg. Charles Smith and Kenneth Tolstann, Seeburg service sales engineers ,likewise dropped in. . . . Henry Facktoroff, sales manager for Associated Amusements, returned from vacation and reported the Cape popular with coinmen — both for business and pleasure. Factoroff also announced that Tradios were drawing good response from all fronts.

Local operators predict good things for several new machines, samples of which Trimount Coin Machine just received. The Keeney "Three-Way Bonus Super Bell" and the Williams "Dynamite" copped best reaction. Dave Bond, Trimount head, further stated that the Gottlieb "Super Liner" had rung the bell, while reception for the Personal Music line had been so good that installations were currently being made in leading Boston locations, including Lord's, Mayflower Doughnut Shop, and others.

Apex reported the Jenning Slots were getting good play and that the new Exhibit game, "Fast Ball," was making its initial appearance this week. "It should be a profitable number," Wells signified. . . . J. J. Golumbo & Company have gone into production of a new unit — a chandelier speaker. Jerry Golumbo expects to have a lot to say about this item in the near future. Golumbo has added Charles Waters to his company, with Waters to become a road man for Rock-Olas.

MINNEAPOLIS

A. C. Mastrud of Fergus Falls (Minn.) came to town to visit with the distribs. He has been in the phono biz for some years, combining it with the operation of a bus depot and a restaurant, but from now on in, he says, the phono route gets his full attention . . . H. J. Gulck of the Gulck Sales Co., this city, has departed for a long vacation in southern Missouri. Cleo Watson, his ace mechanic who had been ill for some weeks, has recovered and is now back on the job . . . Mrs. B. R. Couch, wife of Bun Couch of Grand Forks (N. D.) is reported seriously ill. It is also said that Bun's son, who participated in the Bikini Islands atom bomb test, became ill at Bikini and will require surgery.

Gil Hanson, St. Peter (Minn.) has opened an electrical appliance store at Mankato. A new field, but something to keep his three sons busy, says Gil . . . Ralph Moberg of Bemidji (Minn.) claims that he had had a terrific summer ferrying fishermen into the wilderness and back in his seaplane . . . Among recent visitors to our town were Gus Swenson of Swenson and Noack, operators in the Detroit Lakes (Minn.) territory and Ben Kappel of the Novelty Sales Co., Fargo (N. D.) . . . Frank Kolar of Kolar Vending Co. vacationed over the Labor Day holidays . . . M. A. Cayo of Chippewa Falls (Wis.) has taken on another partner, his brother-in-law, Phil Butler, who is reported doing a bang-up job in Eau Claire getting new locations in the territory.

The South Dakota State Association held their quarterly meeting in Rapid City (S. D.) on August 27 and 28. Main topic of discussion was the reduction of commissions to locations. LaBeau Novelty Co., Rock-Ola distribs for the territory, displayed their new phono during the convention at Deadwood (S. D.), as did the Bush Distributing Co. with their new Aireon . . . Recent newcomers as coin ops is the Chernow Novelty Co., St. Paul (Minn.). The firm, composed of Ben and Bernie Chernow, gets a big "Welcome!" from the trade.

Arnold Halverson of Fargo (N. D.) came to town . . . L. S. Wheeler of Philip (S. D.), reported feeling much better since his illness early last spring . . . Another health note: R. L. Hull, Waconia (Minn.) will enter the hospital for a thorough check-up . . . Jonas H. Bessler spent the Labor Day holidays in Duluth (Minn.) . . . Hy-G Amusement Co. received their first "Atomic Bomber" from International Mutoscope Corp., and ops who have viewed it are reported very enthusiastic . . . Mrs. Henry Klein, wife of the well known Sioux Falls (S. D.) op, not only helps her husband with the coin biz but is also on the staff of a Sioux Falls newspaper . . . Herman Paster of the Mayflower Distributing Co. flew back from Chicago this past week after expediting delivery of his merchandise . . . Twin Port Sales Co. of Duluth (Minn.) displayed the new Packard equipment at Deadwood (S. D.), as did the Hy-G Amusement Co.

PITTSBURGH

Sam Strahl of American Coin-A-Matic is about the most optimistic and smiling-est distrib along Coin Row. No wonder. Sam is receiving new equipment in increasingly larger numbers, which pushes the firm's business up into the category of briskness . . . B. D. Lazar, of B. D. Lazar Co., reports fair shipments of "Superliners," and A.B.T. Challengers & De-Luxe Grippers

Sam Horvitz who keeps things humming at Acme Novelty Co. is getting more optimistic by the hour. One of Sam's difficulties seems to be his inability to supply customers with enough new games, especially "Pitchem" . . . Johnny Peters of Pittsburgh Amusement Co. is another highly optimistic distrib, reporting that they are getting a good break and have no squawks worthy of mention.

Howdy Levine reports he and Mechanic's Service are but feeling their way along, although new equipment is coming through . . . Lou Popkins of Pittsburgh Coin Machine Exchange is jumping the gun by flying through a few Western states in order to scour up some much needed equipment. Meyer, another traveling brother, is passing out alibis on merchandise shortages. Yet Meyer avows business is exceptionally good.

YOU DON'T KNOW WHAT *LOCATION PROFIT* MEANS TILL YOU INSTALL

Solotone

Double . . . treble your former take!

Yes, this is what Solotone is doing for other operators—not just in a few hand-picked locations, but straight across the board.

Solotone can make a poor location into a real profit-taker for you, too.

Solotone multiplies profits because numerous Solotone boxes are always installed in a location — one in each booth and along the counter. Each one of these boxes can earn its own revenue for you *at the same time.* That's the secret of Solotone's multiple-profit success. And that's the reason why you won't know what location profit really means until you install Solotone and watch the extra money roll in.

Better not put it off longer. Get the complete Solotone story today and start cashing in on the biggest take in the history of music merchandising.

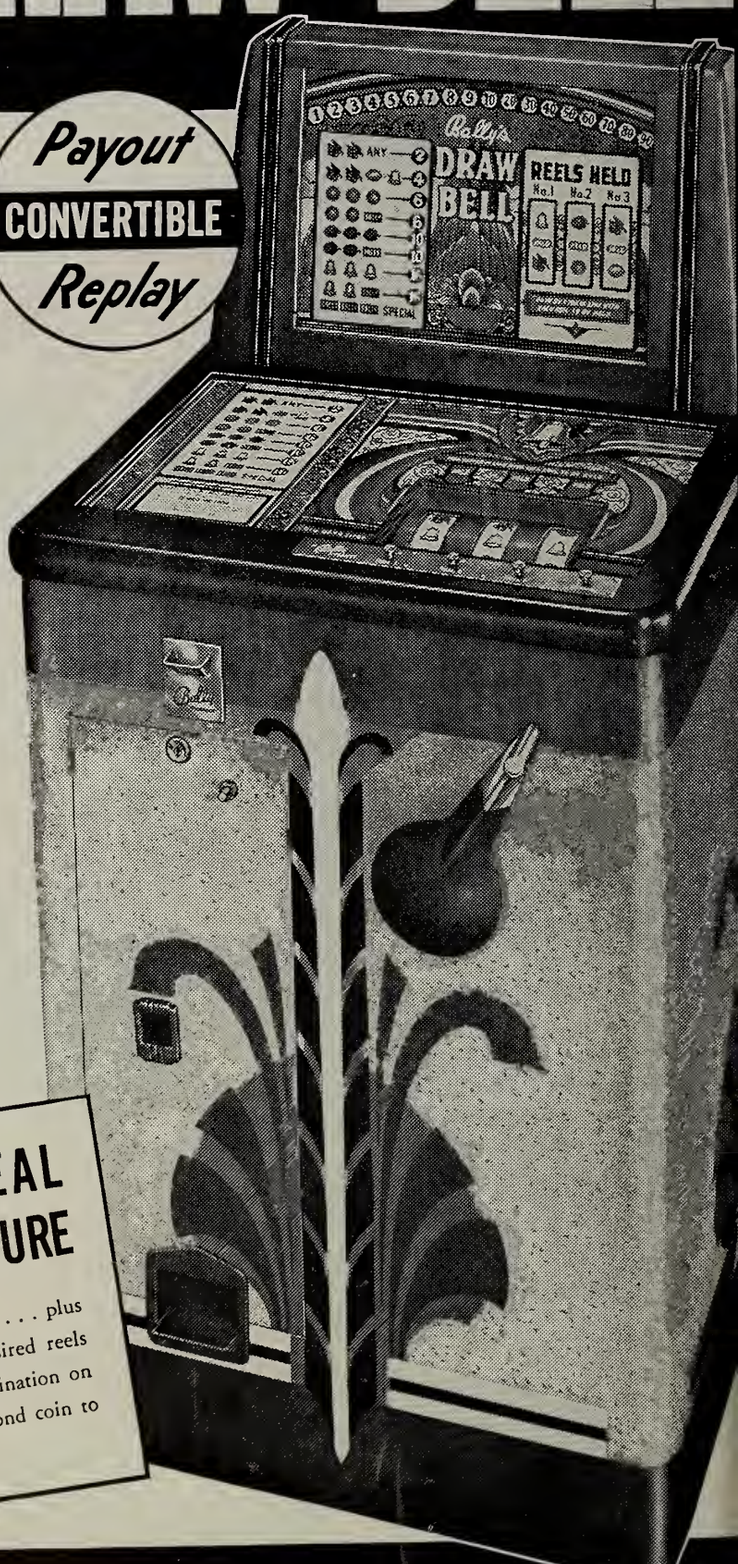
"Greatest Console of all time."

IS NATION-WIDE VERDICT ON

Bally DRAW BELL

Payout CONVERTIBLE Replay



DRAW BELL consoles on location week after week in widely scattered territory . . . in every section of the country . . . are consistently stealing the play from all other equipment . . . out-playing and out-earning pre-war and post-war consoles and bells. Fat collections and record-smashing net profits prove that Bally's new second-win second-spin feature is the most powerful, positive repeat-play stimulator ever created. "Greatest console of all times," is the nation-wide verdict of operators who have watched players crowding up to DRAW BELL, and who are pouring DRAW BELL collections through their coin-counters. Get your share . . . get DRAW BELL. Order now to insure early delivery and quick profits. *Specify Nickel or Quarter play.*

OLD FAVORITE BELL APPEAL PLUS NEW *Hold and Draw* FEATURE

Fast action of three spinning reels with flashy bell-fruit symbols . . . plus new second-coin feature which permits player to hold any desired reels and second-spin the remaining reels! Every non-winning combination on first spin "comes so close" that players can't resist a quick second coin to hold and draw for a winner.
